

## Declaration of Independence

The Declaration of Independence was an act made by the Second Continental Congress. On July 4, 1776, the colonies officially declared their independence from Britain. With the Declaration of Independence, the colonies would fight for their freedom from British rule.

In June of 1776, the Continental Congress appointed five delegates to write the Declaration of Independence. Those five people

were Benjamin Franklin, John Adams, Thomas Jefferson, Roger Sherman, and Robert Livingston. Thomas Jefferson was the primary author of the Declaration of Independence.

The five men, called the Committee of Five, presented the Declaration of Independence to the Continental Congress on June 28, 1776. After several days of debate and many voting sessions, the delegates signed the Declaration of Independence on July 4, 1776. The declaration passed with 12 votes. New York Colony chose not to vote. Copies of the Declaration of Independence were spread throughout the colonies and read aloud in public. The colonies sent a copy of the declaration to the British government.

The Declaration of Independence explained why the colonies wanted to be free from British Rule. The declaration also detailed or described all the grievances or complaints about the King of England. The Declaration of Independence also described the rights that the colonists felt were being ignored by the British.

The Declaration of Independence was signed by 56 members of the Second Continental Congress. John Hancock was the famous first signer with the largest signature on the declaration. Thomas Jefferson and John Adams both signed and would go on to become Presidents of the United States.
