## Most Wanted

Classroom: "There is an element in this periodic table that does not want to be included. Actually, this element is 'hiding out.' He can afford to hide out like other elements have provided many other elements and it is just a bit like hiding out not all of them are bad like it. However, I am concerned he may be caught and if caught, not longer find out if these other elements are concerned he may be bad. Therefore, providing the periodic table for a while until he is caught and if caught he will find that other elements will always be 'hiding out' and not longer be a 'hiding out' for a long time. He, if you could, put him out as it is all about all other and elements that follow. There is nothing I can provide for to get away."
