PointClickCare Customer

Point of Care (POC) enables front-line clinical staff to access key information, task lists and schedules, complete documentation, and receive alerts and messaging, all within proximity of a resident.

PointClickCare POC offers an easy-to-use solution that enables users to document clinical care activities at or near the point of resident care. With POC, care teams can create timely, accurate and complete documentation to maximize RUG scores, while increasing the amount of time spent with residents and reducing time required for routine administrative tasks. Care team members can access POC from kiosks, wall-mounted touch screens, laptops, or on the go from a mobile device. POC ensures compliance and significantly increases the productivity and efficiency of care workers,

thereby improving the service provider's quality of care. The POC solution is easy to learn, understand, and use — ensuring quick adoption whether staff are experts or novices with web-based technology. Care team members can quickly orient themselves to the POC screens that include resident photos for easy identification, quick entry groups, intuitive icons, and large, recognizable scroll bars and tabs. POC's multi-disciplinary features provide staff with a quick and easy way to capture all critical resident data, including activity attendance, Activities of Daily Living (ADLs), and vitals.

Real-time capture and access to resident information.

By eliminating manual, paper-based tracking methods, staff gain additional time to care for residents. Care workers can quickly access the most relevant and timely information to proactively address resident needs, and information captured while with the resident is instantly available to other care team members. Accurate capture of ADLs and full integration with MDS assessments increases RUG scores. Clinical managers gain greater insight into day-to-day activities, monitoring the completion of care and resident status through dashboards and automatically generated alerts, in real-time.
