Polar Manual Fill Countertop Ice Maker:

Tales of Futures Past Paola Iovene, 2014-07-09 Most studies of Chinese literature conflate the category of the future with notions of progress and nation building and with the utopian visions broadcast by the Maoist and post Mao developmental state The future is thus understood as a preconceived endpoint that is propagated at times even imposed by a center of power By contrast *Tales of Futures Past* introduces anticipation the expectations that permeate life as it unfolds as a lens through which to reexamine the textual institutional and experiential aspects of Chinese literary culture from the 1950s to 2011 In doing so Paola Iovene connects the emergence of new literary genres with changing visions of the future in contemporary China This book provides a nuanced and dynamic account of the relationship between state discourses market pressures and individual writers and texts It stresses authors and editors efforts to redefine what constitutes literature under changing political and economic circumstances Engaging with questions of translation temporality formation of genres and stylistic change Iovene mines Chinese science fiction and popular science puts forward a new interpretation of familiar Chinese avant garde fiction and offers close readings of texts that have not yet received any attention in English language scholarship Far ranging in its chronological scope and impressive in its interdisciplinary approach this book rethinks the legacies of socialism in postsocialist Chinese literary modernity
