

Cambridge IELTS 12 Reading Test 7 Answers

FLYING TORTOISES

QUESTIONS 1-7: READING PASSAGE 1 HAS SEVEN PARAGRAPHS, A-G. CHOOSE THE CORRECT HEADING FOR EACH PARAGRAPH FROM THE LIST OF HEADINGS BELOW.

1. PARAGRAPH A

The first paragraph is about the inhospitable environment of the Galapagos Islands and explains that "the islands were colonised by one or more tortoises from mainland South America". There is no heading about the environment. "Colonise" can be considered the same as "populate". Moreover, the author claims "This inhospitable environment is home to the giant Galapagos tortoise." Hence, "one or more tortoises from mainland South America" populated the islands. Heading v is most appropriate for this paragraph. The answer is v.

• Colonise = populate

Answer: v

2. PARAGRAPH B

In paragraph B, the author mentioned what happened to the tortoises after human arrival, and those are negative impacts for the tortoises such as "taken on board these ships to act as food supplies", "they (humans) hunted the tortoises and destroyed their habitat to clear land for agriculture", and so on. All of these can be considered as "the disadvantage of tortoise populations", while "human arrival" and "settlers came to the islands" can be seen as "developments". Therefore, the heading for this paragraph has to be heading iii – "Developments to the disadvantage of tortoise populations". The answer is iii.

Answer: iii.

3. PARAGRAPH C

Paragraph C is about a tortoise-breeding centre with its captive-breeding programme. "Work began" on this programme in 1989 and is "dedicated to protecting the island's tortoise populations". Hence, this programme was the starting-point for tortoise conservation. Heading viii – "The start of the conservation project" is the most appropriate.

• Start = begin

• Programme = project

• Protect tortoise populations = conservation

Answer: viii

4. PARAGRAPH D

Paragraph D told us about an exact point – about 5 years of age – at which "their size and weight – and their hardened shells – are sufficient to protect them from predators". And the author claims: "But if people wait too long after that point, the tortoises eventually become too large to transport.". That means we need to find the perfect timing for captive-bred tortoises to be reintroduced into the wild. Hence, heading i – "The importance of getting the timing right" is the answer.

Answer: i.
