Revolutionary Constitutions Bruce Ackerman, 2019-05-13 A robust defense of democratic populism by one of America s most renowned and controversial constitutional scholars the award winning author of *We the People* Populism is a threat to the democratic world fuel for demagogues and reactionary crowds or so its critics would have us believe But in his award winning trilogy *We the People* Bruce Ackerman showed that Americans have repeatedly rejected this view Now he draws on a quarter century of scholarship in this essential and surprising inquiry into the origins successes and threats to revolutionary constitutionalism around the world He takes us to India South Africa Italy France Poland Burma Israel and Iran and provides a blow by blow account of the tribulations that confronted popular movements in their insurgent campaigns for constitutional democracy Despite their many differences populist leaders such as Nehru Mandela and de Gaulle encountered similar dilemmas at critical turning points and each managed something overlooked but essential Rather than deploy their charismatic leadership to retain power they instead used it to confer legitimacy to the citizens and institutions of constitutional democracy Ackerman returns to the United States in his last chapter to provide new insights into the Founders acts of constitutional statesmanship as they met very similar challenges to those confronting populist leaders today In the age of Trump the democratic system of checks and balances will not survive unless ordinary citizens rally to its defense *Revolutionary Constitutions* shows how activists can learn from their predecessors successes and profit from their mistakes and sets up Ackerman s next volume which will address how elites and insiders co opt and destroy the momentum of revolutionary movements

Revolutionary Constitution David J. Bodenhamer, 2012-08-15 The framers of the Constitution chose their words carefully when they wrote of a more perfect union not absolutely perfect but with room for improvement Indeed we no longer operate under the same Constitution as that ratified in 1788 or even the one completed by the Bill of Rights in 1791 because we are no longer the same nation In *The Revolutionary Constitution* David J Bodenhamer provides a comprehensive new look at America s basic law integrating the latest legal scholarship with historical context to highlight how it has evolved over time The Constitution he notes was the product of the first modern revolution and revolutions are by definition moments when the past shifts toward an unfamiliar future one radically different from what was foreseen only a brief time earlier In seeking to balance power and liberty the framers established a structure that would allow future generations to continually readjust the scale Bodenhamer explores this dynamic through seven major constitutional themes federalism balance of powers property representation equality rights and security With each he takes a historical approach following their changes over time For example the framers wrote multiple protections for property rights into the Constitution in response to actions by state governments after the Revolution But twentieth century courts and Congress redefined property rights through measures such as zoning and the designation of historical landmarks diminishing their commercial value in response to the needs of a modern economy The framers anticipated just such a future reworking of their own compromises between liberty and power With up to the minute legal expertise and a broad grasp of the social and political context this book is a tour de force of Constitutional history and analysis
