improvisation series is a concept that germinated in Dick Weissman's mind while he was attending music school. He wrote a 15 piece arrangement of the old square dance tune Cripple Creek and wanted the trombone to take a solo as part of the arrangement. When the trombonist kept playing a bebop solo that was totally unsuitable for the chart, Dick realized that in addition to the many musicians who do not improvise, there are even jazz musicians who don't know how to improvise outside the limits of their own stylistic backgrounds. This book approaches the five string banjo as a musical instrument freed from the prison of specific musical genres. Old time music, clawhammer bluegrass and many eclectic adaptations of the banjo are utilized to demonstrate a variety of musical styles. A number of the selections are in different tunings. All examples are written out in traditional and tablature notation.

Life in Baltimore for these musicians was not easy. There were missed opportunities, personal demons, and always the uphill battle with prejudice against their hillbilly origins. Based upon interviews with legendary players from the golden age of Baltimore bluegrass, this book provides the first in-depth coverage of this transplanted roots music and its broader influence, detailing the struggles Appalachian musicians faced in a big city that viewed the music they made as the poorest example of poor man's music.
