Democracy, Civic Culture and Small

Business in Russia's Regions Molly O'Neal,2015-08-20 This book adopts a novel analytical approach to understanding how Russia's stalled democratisation is related to the incomplete liberalisation of the economy Based on extensive original comparative study of Russia's regions the book explores the precise channels of interaction that create the mutuality of property rights entrepreneurship rule of law norms of citizenship and liberal democracy It demonstrates that the extent of democratisation varies across regions and that this variation is connected to the extent of liberalisation of the economy Moreover it argues that the key factor in producing this linkage is the relative prominence of small business owners and their supporters in articulating their interests vis vis regional and local administrations especially through the institutionalisation of networks and business associations The book develops its key theses by means of detailed analysis of the experiences of four case study regions Overall the book provides a major contribution to understanding the path of democratisation in Russia

The Russian City in Transition Martha De Melo,Gur Ofer,1999 Reform in 10 regional capitals along the Volga River is associated with favorable initial conditions And both reform and favorable initial conditions are associated with relatively successful economic outcomes except where access to extra resources improves outcomes or where weak government undermines success
