**Re: Comment on Sand Creek Byway Permit Application - NWW No. 040500002
For Discharging Dredged and Fill Materials into Sand Creek**

Dear US Army Corps of Engineers:

I am writing in regards to Idaho Department of Transportation's application for a permit for discharging fill and dredging in Sand Creek in order to construct the Sand Creek "byway" segment of the US 95 Sandpoint North-South project. As you are aware, Section 404 of the Clean Water Act regulates discharge of dredged and fill materials into the nation's waters. The applicable regulations include 40 CFR Part 230 defining the 404(b)(1) guidelines for evaluating the impacts of the proposed activity and 33 CFR 320 defining the public interest review process.

It is my/ our understanding that, in order to receive a Section 404 permit, the application and the project must meet regulatory requirements or the permit will be denied. It is my/our expectation that the Army Corps of Engineers will fulfill their obligations in evaluating the permit for compliance with the applicable regulations and that those regulations will be upheld.

Below are my/our comments on Idaho Transportation Department's permit application:

Sincerely,

Sandpoint Area Citizen(s)
