- Avoid use in damaged charger or battery.

This marking placed on the product or its packaging indicates that it should not be disposed with other household wastes at the end of its working life.

To prevent possible harm to the environment or human health from hazardous waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.

Safety warnings

Keep your phone away from small children and pets

Keep your phone and all accessories out of the reach of small children or animals. Small parts may cause choking or serious injury if swallowed.

Protect your hearing

Listening to a headset at high volumes can damage your hearing. Use only the maximum volume setting necessary to hear your conversation or music.

Install mobile phones and equipment with caution

Ensure that any mobile phones or related equipment installed in your vehicle are securely fastened. Avoid placing your phone and accessories (such as in an air bag deployment area) improperly installed equipment can cause serious injury when an air bag inflates rapidly.

Handle and dispose of batteries and chargers with care

- Use only Samsung approved batteries and chargers specifically designed for your phone. Incompatible batteries and chargers can cause serious injuries or damage to your phone.
- Never dispose of batteries or phone in a fire. Follow all local regulations when disposing used batteries or phone.
- Never place batteries or phones in or in heating devices, such as microwave ovens, stoves, or radiators. Batteries may explode under such conditions.
- Never crush or squish the battery. Avoid exposing the battery to high external pressure, which can lead to an internal short circuit and overheating.

Avoid interference with pacemakers

Maintain a minimum of 15 cm (6 inches) between mobile phones and pacemakers to avoid potential interference. As recommended by manufacturers and the independent research group, Samsung Technology Research, if you have any reason to suspect that your phone is interfering with a pacemaker or other medical device, turn off the phone immediately and contact the manufacturer of the pacemaker or medical device for guidance.

Turn off the phone in potentially explosive environments

Do not use your phone in potentially explosive (volatile) chemical, dust, or gas (such as flour) areas. Turn off your phone whenever identified by warning signs or instructions that phone could cause explosions or fire in and around fuel or chemical storage and transfer areas or flammable areas. Do not store or carry flammable liquids, gases, or explosive materials in the same compartment as the phone, its parts, or accessories.

Reduce the risk of repetitive motion injuries

When spending long durations in playing games on your phone, hold the phone with a relaxed grip, avoid the battery tightly, use special features that reduce the number of button-pushes (such as touch screen) and predictive text, and take frequent breaks.

Do not use your device during a thunderstorm

Your device may malfunction and your risk of electric shock is increased.

Safety precautions

Drive safely at all times

Avoid using your phone while driving and obey all regulations that restrict the use of mobile phones while driving. Use hands-free accessories to maximize your safety when possible.

Follow all safety warnings and regulations

Comply with any regulations that restrict the use of a mobile phone in a certain area.

Use only Samsung-approved accessories

Using incompatible accessories may damage your phone or cause injury in case of explosion. Many accessories are not available. Use these accessories only.

Turn off the phone near medical equipment

Your phone can interfere with medical equipment or facilities at health-care facilities. Follow all regulations, posted warnings, and directions from medical personnel.

Important usage information

Use your phone in the normal position

Avoid contact with your phone's internal antenna.

Allow only qualified personnel to service your phone

Allowing unqualified personnel to service your phone may result in damage to your phone and will void your warranty.

Ensure maximum battery and charger life

- Avoid charging batteries for more than a week, as overcharging may shorten battery life.
- Over-time, unused batteries will discharge and must be recharged before use.
- Disconnect charging from power sources when not in use.
- Use batteries only for their intended purpose.

Handle SIM cards and memory cards with care

- Do not remove a card while the phone is functioning or accessing information, as this could result in loss of data and/or damage to the card or phone.
- Protect cards from strong shocks, static electricity, and moisture to avoid these other problems.
- Prevent writing and erasing with plastic (the life span of memory cards).
- Do not touch gold-colored contacts or terminals with your fingers or metal objects. If only wear the card with a soft cloth.

Ensure access to emergency services

Emergency calls from your phone may not be possible in some areas or circumstances. Before traveling in remote or undeveloped areas, gain an alternate method of contacting emergency services (such as satellite).

SAR information

Your phone conforms to European Union (EU) standards that limit human exposure to radio frequency (RF) energy emitted by radio and telecommunications devices. These specifications protect the safety of mobile phones that exceed a maximum exposure limit (shown as the Specific Absorption Rate, or SAR) of 2.0 watts per kilogram of body tissue.

During testing, the maximum SAR measured for this model was 0.823 watts per kilogram. In normal use, the actual SAR is likely to be much lower, as the phone has been designed to emit only the RF energy necessary to transmit or signal to the nearest base station. By automatically switching down power when possible, your phone reduces your overall exposure to RF energy. The Declaration of Conformity of this manual demonstrates your phone's compliance with the European Radio & Telecommunications Equipment (RTE) directive. For more information about the SAR and related EU standards, visit the Samsung mobile phone website.
