

# What is International Relations?

---

- **International relations (IR)** is the study of relationships between countries, including the roles of States, Inter-governmental Organization (IGOs), International Non-governmental Organization (INGOs), Non-governmental Organization (NGOs) and Multinational Corporations (MNCs).
- A strict definition of International Relations would confine itself to the relationships between the world's national governments, conducted by politicians at the highest level. However, this is a far too simplistic and narrow perspective of international relations.
