

The background of the cover is a traditional Chinese ink and wash painting. It depicts a landscape with a river in the foreground, a path leading up a hill, and several figures. One figure is riding a horse on the left, while others are walking or standing on the path. The style is characteristic of classical Chinese art, with soft colors and a focus on naturalistic representation.

Van Norden, 2011-03-04 This book is an introduction in the very best sense of the word It provides the beginner with an accurate sophisticated yet accessible account and offers new insights and challenging perspectives to those who have more specialized knowledge Focusing on the period in Chinese philosophy that is surely most easily approachable and perhaps is most important it ranges over a rich set of competing options It also with admirable self consciousness presents a number of daring attempts to relate those options to philosophical figures and movements from the West I recommend it very highly Lee H Yearley Walter Y Evans Wentz Professor Religious Studies Stanford University

Ritual and Religion in the Xunzi T. C. Kline III, Justin Tiwald, 2014-06-17 Challenges traditional views to consider Xunzi as a religious thinker Xunzi a founding figure in the Confucian tradition is one of the world's great philosophers and theorists of religion For much of the last century his work has been seen largely as critical of religion particularly the popular beliefs and invocations of supernatural forces that underpin so many religious rituals Contributors to this volume challenge this view and offer a more sophisticated picture of Xunzi He emerges not as critic but rather as an adherent of religion who seeks to give religious practices meaning even though many religious beliefs are mistaken or self serving Each essay offers a powerful illustration of Xunzi as both a religious devotee and as a philosopher of religion drawing on a wide array of disciplines and methodologies

The ^AEmotions in Early Chinese Philosophy Curie Virág,2017-02-13 In China the debate over the moral status of emotions began around the fourth century BCE when early philosophers first began to invoke psychological categories such as the mind *xin* human nature *xing* and emotions *qing* to explain the sources of ethical authority and the foundations of knowledge about the world Although some thinkers during this period proposed that human emotions and desires were temporary physiological disturbances in the mind caused by the impact of things in the world this was not the account that would eventually gain currency The consensus among those thinkers who would come to be recognized as the foundational figures of the Confucian and Daoist philosophical traditions was that the emotions represented the underlying dispositional constitution of a person and that they embodied the patterned workings of the cosmos itself Curie Vir g sets out to explain why the emotions were such a central preoccupation among early thinkers situating the entire debate within developments in conceptions of the self the cosmos and the political order She shows that the mainstream account of emotions as patterned reality emerged as part of a major conceptual shift towards the recognition of natural reality as intelligible orderly and coherent The mainstream account of emotions helped to summon the very idea of the human being as a universal category and to establish the cognitive and practical agency of human beings This book the first intensive study of the subject traces the genealogy of these early Chinese philosophical conceptions and examines their crucial role in the formation of ethical political and cultural values in China

Garfield, Graham Priest, Robert H. Sharf, 2021-02-12 This multi authored monograph argues that the use of paradox and contradictions in contrast to in typical Western thought can deepen rather than disprove philosophical thought and discussion Here the authors apply this view to East Asian philosophy examining two classical Daoist texts the Daodejing and the Zhuangzi and the trajectory of Buddhism in East Asia including the San Lun Tiantai Chan and Zen traditions culminating with the Kyoto school of philosophy in the twentieth century The work ultimately concludes that contradictory positions illuminate deeper understandings of inconsistencies in reality and in the world **Teaching Confucianism** Jeffrey L. Richey, 2008-02-05 Even the most casual observer of Chinese society is aware of the tremendous significance of Confucianism as a linchpin of both ancient and modern Chinese identity Furthermore the Confucian tradition has exercised enormous influence over the values and institutions of the other cultures of East Asia an influence that continues to be important in the global Asian diaspora If forecasters are correct in labeling the 21st century the Chinese century teachers and scholars of religious studies and theology will be called upon to illuminate the history character and role of Confucianism as a religious tradition in Chinese and Chinese influenced societies The essays in this volume will address the specifically pedagogical challenges of introducing Confucian material to non East Asian scholars and students Informed by the latest scholarship as well as practical experience in the religious studies and theology classroom the essays are attentive to the various settings within which religious material is taught and sensitive to the needs of both experts in Confucian studies and

Littlejohn,2015-11-18 The philosophical traditions of China have arguably influenced more human beings than any other China has been the home not only of its indigenous philosophical traditions of Confucianism and Daoism but also of uniquely modified forms of Buddhism As Ronnie L Littlejohn shows these traditions have for thousands of years formed the bedrock of

the longest continuing civilization on the planet and Chinese philosophy has profoundly shaped the institutions social practices and psychological character of East and Southeast Asia The author here surveys the key texts and philosophical systems of Chinese thinkers in a completely original and illuminating way Ranging from the Han dynasty to the present he discusses the six classical schools of Chinese philosophy Yin Yang Ru Mo Ming Fa and Dao De the arrival of Buddhism in China and its distinctive development the central figures and movements from the end of the Tang dynasty to the introduction into China of Western thought and the impact of Chinese philosophers ranging from Confucius and Laozi to Tu Weiming on their equivalents in the West *Taking Back Philosophy* Bryan W.
