

CPPS RECERTIFICATION HANDBOOK

Recertification Guidelines

The Certified Professional in Patient Safety (CPPS) program certifies health care professionals who meet the competency requirements in the areas of patient safety science and human factors engineering, and who demonstrate the ability to apply this knowledge to effectively plan and implement patient safety initiatives.

The CPPS credential establishes core standards for the field of patient safety, benchmarks requirements necessary for health care professionals, and sets an expected proficiency level. It gives those working in patient safety a means to demonstrate their proficiency and skill in the discipline and provides a way for employers to validate a potential candidate's patient safety knowledge and skill base, critical competencies in today's health care environment.

The purpose of recertification is to promote continued competence in the field of patient safety. When asked, patient safety professionals indicated to CBPPS, that they believed the science of patient safety is frequently changing, with relevant developments/discoveries/recommendations on a monthly to yearly basis. This answer helped inform the Board's decision to set the recertification interval to every three years. This decision was further supported by the Board's commitment to a Job Analysis/Study of Practice every 3-5 years. The Board felt these requirements would serve to promote continued competence while not being overly burdensome to the certified professional.

Following successful completion of the CPPS examination, the certificant is required to recertify by fulfilling continuing education (CE) requirements, which are reviewed and established by the Certification Board for Professionals in Patient Safety (CBPPS). There are currently two acceptable paths to recertification. Recertification Path I includes obtaining and maintaining documentation of 45 CE hours over the 3-year recertification cycle and payment of a recertification fee. All CE must relate to areas covered in the most current examination content outline. Recertification Path II requires sitting for and passing the CPPS examination within one year prior to their expiration date.

Recertification Cycle

Each recertification cycle is 3 years in length. Certificants must apply for recertification by the end of the month in which they originally received certification (i.e., an individual certified on March 1, 2023, must reapply by March 31, 2026).

Application Refusal

Applications may be refused, candidates may be barred from future examinations, or candidates or individuals may be sanctioned including revocation of the CPPS designation, for the following reasons:

1. Attesting to false information on the application or on recertification documents
2. Unauthorized possession or distribution of any official testing or examination materials
3. Representing oneself falsely as a designated CPPS
