A. J. Pollard

Richard III And The Princes In The Tower:

Richard III and the Princes in the Tower A. J. Pollard, 1991 Richard's childhood and youth Rebellion 1483 The fate of the Princes The reign of Richard III Cartoons and caricatures Conflicting opinions as to the fate of his two nephews Ideas about the character of Richard III **The Lost King** Alison Prince, 2014-04-24 Edward IV has died leaving his 12 year old son as king But England has been torn apart by the Wars of the Roses Nobody wants a boy king Soon the boy's uncle Richard III is on the throne but Henry Tudor is challenging him for the crown Henry and Richard have one thing in common they need the young Edward V and his little brother out of the way The two boys are sent to the Tower of London for safety They are never seen again A fascinating look at the brief reign of Richard III told through the eyes of the prince's nursemaid What really happened to the princes in the Tower Was Richard responsible or has he been wrongly accused for centuries

Richard III and the Princes in the Tower A. J. Pollard, 2004-01-01 Richard III is one of the most controversial figures in English history Traditionally he has been perceived as a villain a bloody tyrant and the monstrous murderer of his innocent nephews to others he was and remains a wronged victim who did his best for kingdom and family a noble prince and enlightened statesman tragically slain This fully illustrated book explores the story of Richard III and the tales that have been woven around the historic events discusses his life and reign and the disappearance of the Princes in the Tower and assesses the original sources upon which much of the history is based The text is illustrated by over 150 manuscript illustrations engravings contemporary documents and photos in both B W and color **Richard III and the Princes in the Tower** Alison Weir, 2014-08-07 Includes a new foreword by the author The story of the death in sinister circumstances of the boy king Edward V and his younger brother Richard Duke of York is one of the most fascinating murder mysteries in English history It is a tale with profound moral and social consequences rich in drama intrigue treason scandal and violence In this gripping book Alison Weir re-examines all the evidence including that against the Prince's uncle Richard III whose body was recently discovered beneath a Leicester car park She brilliantly reconstructs the whole chain of events leading to their murder and reveals how why and by whose order they died Previously published as **The Princes in the Tower** **Richard III and the princes in the Tower** , 1965 A portfolio of primary source documents *The Princes in the Tower* Josephine Wilkinson, 2013-10-15 Did Richard III Murder His Nephews Edward V Richard of York Huge interest in Richard III at the moment with the discovery of his skeleton and also with his historical rehabilitation **Richard III and the Princes in the Tower** Gerald Prenderghast, 2017-06-09 The fate of Richard III's two nephews Edward V and Richard of York who disappeared after his coronation in 1483 has remained controversial centuries after Thomas More's history and Shakespeare's play laid the blame on their conniving uncle Some later writers unconvinced of the king's guilt have tried with little success to portray him as an innocent victim of Tudor propaganda pointing instead to a number of unlikely culprits including Henry Tudor and the Duke of Buckingham This book sifts through the available evidence about the fate of the two boys The author

examines the facts discusses who may or may not have had information and offers a reasoned solution to the question What really happened to the two princes Richard III and the Princes in the Tower A. J. Pollard,1991 Richard s childhood and youth Rebellion 1483 The fate of the Princes The reign of Richard III Cartoons and caricatures Conflicting opinions as to the fate of his two nephews Ideas about the character of Richard III Richard III and the Princes in the Tower John Langdon-Davies,1965 *Richard III and the Princes in the Tower* John Langdon-Davies,1971 **The Princes in the Tower** Elizabeth Jenkins,1992 **The Princes in the Tower** Philippa Langley,2023-11-19 In 1483 Edward V age twelve and his brother Richard Duke of York age nine disappeared from the Tower of London History has judged they were murdered on the orders of Richard III This new book reveals the truth behind the greatest unsolved mystery in English history Philippa Langley took the world by storm when against all the odds and after a seven year investigation she discovered the grave of King Richard III 1452 1485 in a Leicester car park A king finally laid to rest the rediscovery and reburial of Richard III was watched by a global audience of over 366 million Now in *The Princes in the Tower* Langley reveals the findings of a remarkable new research initiative The Missing Princes Project In the summer of 1483 Edward V age 12 and his brother Richard Duke of York age 9 disappeared from the Tower of London For over five hundred years history has judged that they were murdered on the orders of their uncle Richard III Following years of intensive research in British American and European archives Philippa has uncovered astonishing new archival discoveries that radically change what we know about the fate of the princes in the Tower Established by Langley in 2016 The Missing Princes Project employs the methods of a cold case police inquiry Using investigative methodology it aims to place this most enduring of mysteries under a forensic microscope for the very first time In *The Princes in the Tower* Langley narrates the painstaking investigative work and research of the project By questioning received wisdom she and her international team of researchers shed light upon one of history s greatest miscarriages of justice in turn revealing a surprising and phenomenal untold story **Royal Blood** Bertram Fields,1998-09-23 With his hunched back and withered arm Richard scuttles across the stage like a huge spider spewing out his venomous thoughts Since I cannot prove a lover he confides to the hushed audience I am determined to prove a villain And he means it As the drama unfolds this grotesque villain kills the youthful Prince of Wales and the aged saintly Henry VI Then he schemes to drown his brother in a vat of wine to poison his wife and worst of all to murder his two young nephews the older of whom was the rightful king Deserted by subjects so appalled at his bloody conduct that they will not fight beside him Richard the usurper is defeated by the heroic Henry Tudor at the Battle of Bosworth Field Surrounded and about to die he cries out in desperation A horse A horse My kingdom for a horse But was this all true Notoriously immortalized by Shakespeare and historians he is history s most infamous royal villain Richard III King of England from 1483 to 1485 Shakespeare s portrait comes ultimately from an unfinished manuscript by the sainted Sir Thomas More who s assessment has generally been supported by chroniclers of the period and down through our own time Yet some revisionists

have offered a far different portrait of a man they describe as the victim of a deliberate campaign of slander devised by the Tudors who took the throne on Richard's death. Revisionist historians present Richard as a brave and valiant soldier, a loyal brother and an intelligent able king popular with his subjects who was defeated only through treachery. In this comprehensive meticulously researched new book renowned litigator Bertram Fields goes back more than 500 years to offer a compelling look at the case of Richard III. Applying the same modern techniques he successfully uses in the courtroom, Fields outlines and evaluates the arguments on both sides, weighs the evidence and offers the definitive truth about this extraordinary man. Fields examines the earliest biographers of Richard, exposing the political, cultural and geographical biases inherent in their portrayals and reveals how much fact was actually gossip and disinformation, including that given the world by More and Shakespeare. He sets the stage for the coming drama with a lucid and colorful picture of the War of the Roses, the long struggle between the houses of York (white rose) and Lancaster (red rose) that put Richard's family on the throne. He vividly brings to life the key players, including the weak but saintly Henry VI, used and deceived by everyone, including his rapacious queen, the womanizing soldier king Edward IV, bribed into inaction by the French king's gold, his conniving wife Elizabeth Woodville, the charming but treacherous brother Clarence, Richard's loyal wife Anne Neville, kidnapped and hidden away as a kitchen maid, and Henry Tudor, the exile with virtually no legitimate claim to rule who schemed at Richard's betrayal and replaced him on the throne. Setting them against the rich tapestry of the period, the author conveys a fresh and insightful view of the many players in this royal drama and analyzes their motives and machinations as they vie for the power of the crown. Clearing away the dust of time, *Royal Blood* attempts to answer the intriguing questions inherent in the drama: Was Edward IV's marriage truly legal? Were his sons, Edward Prince of Wales and Richard Duke of York, illegitimate? What role did Richard play or not in his brother Clarence's death? Were the bones found in the Tower of London those of the young princes? Was there even a murder, were the boys instead removed from the Tower and raised in secrecy? And if they were cold bloodedly killed, who else would have wanted them dead? The neurotic mercurial Buckingham, Henry VII himself. *Royal Blood* ends with a stunning reenvisioning of British and world history: what if Richard had never accepted the crown? What if he had instead insisted his young nephew reign as Edward V? How would our lives be changed? Breathtaking in its scope and depth, this brilliant provocative volume, a complex melding of history, biography and mystery, is a powerful argument that sheds new light on common belief, showing that virtually everything we know about Richard III is wrong.

The Last Days of Richard III and the fate of his DNA John Ashdown-Hill, 2013-01-16. The Last Days of Richard III contains a new and uniquely detailed exploration of Richard's last 150 days. By deliberately avoiding the hindsight knowledge that he will lose the Battle of Bosworth Field, we discover a new Richard: no passive victim awaiting defeat and death, but a king actively pursuing his own agenda. It also re-examines the aftermath of Bosworth: the treatment of Richard's body, his burial and the construction of his tomb. And there is the fascinating story of why and how Richard III's family tree was traced.

until a relative was found alive and well in Canada Now with the discovery of Richard s skeleton at the Greyfriars Priory in Leicester England John Ashdown Hill explains how his book inspired the dig and completes Richard III s fascinating story giving details of how Richard died and how the DNA link to a living relative of the king allowed the royal body to be identified

On the Trail of King Richard III L. M. Ollie, 2012-07-10 Every age has its heroes and its villains Richard III King of England 1483-1485 was a villain a monster perhaps but that s Shakespeare s version sourced from documents which were either pro Tudor or blatantly anti York the War of the Roses The Continuation But was he so very evil Not according to a small group of enthusiastic individuals called Ricardians who seek to have the truth told The central character of this work of fiction Laura Kempe is determined to undertake her own investigation using a combination of common sense instinct and more than a touch of ESP She gets more than she bargains for however when she reaches for the ultimate prize the truth about what happened to the Princes in the Tower and unwittingly unleashes a chain of events which threaten to destroy her and her travelling companions Witty amusing and provocative this is a story overflowing with little known facts bizarre encounters and finally unremitting evil A traveler s tale Absolutely But be warned For those who seek knowledge must come prepared for often it seems that Truth is jealously guarded to the death and sometimes beyond Reputed to be the most concise and historically accurate rendering of King Richard III yet set within the confines of an intelligently written exciting and frequently amusing story line **Richard III - A Small Guide to the Great Debate** Annette Carson, 2018-09-07

Richard III was King of England in 1483-1485 Now the discovery of his lost grave has led to an upsurge of interest in his controversial reputation **Richard III and the Murder in the Tower** Peter A Hancock, 2011-08-26 Richard III is accused of murdering his nephews the Princes in the Tower in order to usurp the throne of England Since Tudor times he has been painted as the black legend the murderous uncle However the truth is much more complicated and interesting Rather than looking at all the killings Richard III did not commit this book focuses on the one execution for which we know that he was responsible On Friday 13 June 1483 William Lord Hastings was hustled from a meeting of the Royal Council and summarily executed on Tower Green within the confines of the Tower of London Peter A Hancock sheds light on the mystery of this precipitate and unadvised action by the then Duke of Gloucester and reveals the key role of William Catesby in Richard s ascent to the throne of England It explains his curious actions during that tumultuous summer of three kings and provides an explanation for the fate of the Princes in the Tower The Princes in the Tower Alison Weir, 1995-07-10 A fascinating and deeply researched The Daily Telegraph investigation into one of the British royal family s greatest mysteries the murders of young king Edward V and Richard Duke of York from the New York Times bestselling author of The Last White Rose Weir takes us on this delicious mystery with a fearsome vengeance Milwaukee Journal Despite five centuries of investigation by historians the sinister deaths of Edward V and his younger brother Richard Duke of York remain two of the most gripping mysteries in English history Did Richard III really kill the Princes in the Tower as is commonly believed or was the murderer

someone else entirely Carefully examining every shred of contemporary evidence as well as dozens of modern accounts Alison Weir reconstructs the entire chain of events leading to the double murder We are witness to the tumultuous reign of Edward VI the princes father and the rivalry ambition intrigue and struggle for power after his death that led to the imprisonment of the princes and the hushed up murders that secured Richard III s claim to the throne A masterpiece of historical research and a riveting story of conspiracy and deception *The Princes in the Tower* at last provides a solution to this age old puzzle *The Survival of the Princes in the Tower* Matthew Lewis,2017-09-11 The murder of the Princes in the Tower is the most famous cold case in British history Traditionally considered victims of their ruthless uncle there are other suspects too often and too easily discounted There may be no definitive answer but by delving into the context of their disappearance and the characters of the suspects Matthew Lewis examines the motives and opportunities afresh as well as asking a crucial but often overlooked question what if there was no murder What if Edward V and his brother Richard Duke of York survived their uncle s reign and even that of their brother in law Henry VII In this new and updated edition compelling evidence is presented to suggest the Princes survived which is considered alongside the possibility of their deaths to provide a rounded and complete assessment of the most fascinating mystery in history *Digging for Richard III: The Search for the Lost King* Mike Pitts,2014-11-11 The story of the archaeology behind the dig that found Richard III told through a fascinating array of photographs diagrams and firsthand accounts In August 2012 a search began and on February 4 2013 a team from Leicester University delivered its verdict to a mesmerized press room watched by media studios around the world they had found the remains of Richard III whose history is perhaps the most contested of all British monarchs History offers a narrow range of information about Richard III which mostly has already been worked to destruction Archaeology creates new data new stories with a different kind of material physical remains from which modern science can wrest a surprising amount and which provide a direct tangible connection with the past Unlike history archaeological research demands that teams of people with varied backgrounds work together Archaeology is a communal activity in which the interaction of personalities as well as professional skills can change the course of research Photographs from the author s own archives alongside additional material from Leicester University offer a compelling detective story as the evidence is uncovered

Reviewing **Richard Iii And The Princes In The Tower**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is really astonishing.
