

The Risk Report Card

VW do Brasil summarizes its strategy risks on a Risk Report Card organized by strategic objectives (excerpt below). Managers can see at a glance how many of the identified risks for each objective are critical and require attention or mitigation. For instance, VW identified 11 risks associated with achieving the goal "Satisfy the customer's expectations." Four of the risks were critical, but that was an improvement over the previous quarter's assessment. Managers can also monitor progress on risk management across the company.

Strategic objective	ASSESSED RISKS	CRITICAL RISKS	TREND
Achieve market share growth	4	1	↔
Satisfy the customer's expectations	11	4	↑

Risk Assessment Report In Foreign Policy:

Handbook of Foreign Policy Analysis Daniel Frei, Dieter Ruloff, 1989-01-01 This book provides the reader with a comprehensive study of the future perspectives of the international order after the collapse of the Evil Empire The first part of the book reviews the likely evolution of the international system in the years to come covering the global implications of the end of the East West order political economic the second part studies the specificities of the situation in Europe the U S A Asia the rest of the world as well as the role of some international organizations The book addresses the basic questions facing us since the collapse of the socialist system What has been the impact of the collapse of the East West order on the international system How will various regions actors be affected by these changes How will they react to them What will be the most important challenges threats in the future international system how can we prepare for them Gathered together in this volume are contributions from some of the most eminent experts from the academic community as well as from governmental international organizations making it a reference book for students of international affairs as well as policy makers corporate managers

Failed States and Fragile Societies Ingo Trauschweizer, Steven M. Miner, 2014-06-01 Since the end of the Cold War a new dynamic has arisen within the international system one that does not conform to established notions of the state s monopoly on war In this changing environment the global community must decide how to respond to the challenges posed to the state by military threats political and economic decline and social fragmentation This insightful work considers the phenomenon of state failure and asks how the international community might better detect signs of state decay at an early stage and devise legally and politically legitimate responses This collection of essays brings military and social historians into conversation with political and social scientists and former military officers In case studies from the former Yugoslavia Somalia Iraq and Colombia the distinguished contributors argue that early intervention to stabilize social economic and political systems offers the greatest promise whereas military intervention at a later stage is both costlier and less likely to succeed Contributors David Carment Yiagadeesen Samy David Curp Jonathan House James Carter Vanda Felbab Brown Robert Rotberg Ken Menkhaus
