Education and Development in Zimbabwe Edward Shizha, Michael T. Kariwo, 2012-01-01 The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing

an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country s education Handel Kashope Wright Professor of Education University of British Columbia

Religious Education in Malawi and Ghana Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education

Teacher in Zimbabwe, 2014 [International Reflections on the Netherlands Didactics of Mathematics](#) Marja

van den Heuvel-Panhuizen,2019-08-13 This open access book inspired by the ICME 13 Thematic Afternoon on European Didactic Traditions takes readers on a journey with mathematics education researchers developers and educators in eighteen countries who reflect on their experiences with Realistic Mathematics Education RME the domain specific instruction theory for mathematics education developed in the Netherlands since the late 1960s Authors from outside the Netherlands discuss what aspects of RME appeal to them their criticisms of RME and their past and current RME based projects It is clear that a particular approach to mathematics education cannot simply be transplanted to another country As such in eighteen chapters the authors describe how they have adapted RME to their individual circumstances and view on mathematics education and tell their personal stories about how RME has influenced their thinking on mathematics education **Inspirational Guide for the Implementation of PRME** Principles for Responsible Management Education,2017-09-08 Since the inception of the United Nations Global Compact sponsored initiative Principles for Responsible Management Education PRME in 2007 there has been increased debate over how to adapt management education to best meet the demands of the 21st century business environment While consensus has been reached by the majority of globally focused management education institutions that sustainability must be incorporated into management education curricula the relevant question is no longer _why_ management education should change but _how_ Although the PRME initiative is set to increase to 1 000 signatories by 2015 it is equally important for PRME to cultivate actively engaged participants Therefore the next step is for current participants to transition from a global learning community to an action community For this purpose the PRME Secretariat invited a small group of experts to coordinate an Inspirational Guide for the Implementation of PRME which was presented at the 3rd Global Forum for Responsible Management Education the official platform for management related Higher Education Institutions HEIs at both the Global Compact Rio 20 Corporate Sustainability Forum and the UN Conference on Sustainable Development Rio 20 in June 2012 in Rio de Janeiro The Guide answers the most frequently asked questions concerning the implementation of PRME by highlighting real world examples from the most engaged signatories The exercise has proven successful and this publication features 63 case stories from 47 institutions representing 25 countries across Asia Oceania the Americas Europe the Middle East and Africa They are the real actors in this effort and their stories are truly inspirational Their experiences are classified into six sections which address the Six Principles of PRME Purpose Values Method Research Partnership and Dialogue as well as important related aspects such as how to get started how to successfully report on PRME adoption and so on The full richness of experiences set forth in this Guide is captured only by reading the wealth of innovative practices found in each case *Researching Catholic Education* Sean Whittle,2018-01-25 This book presents a range of perspectives on the current state of Catholic education in the opening decades of the twenty first century All of the chapters have their origin in an International Conference on Catholic Education held at Heythrop College University of London in September 2016 The book brings together many leading scholars to present a survey of the latest research on Catholic education in areas such as

the aims of Catholic education Catholic schools and Catholic identity leadership issues in Catholic schools and fresh thinking about the place of Religious Education RE in Catholic Education This book demonstrates how the field of Catholic Education Studies has firmly come of age Rather than being a subfield of educational or theological discourse it is now an established field of research and study As such the book invites readers to engage with much of the new thinking on Catholic education that has grown rapidly in recent years It offers a broad range of contemporary perspectives on research in Catholic Education and rich insights into current thinking about Catholic Education Teaching Statistics in School
