, Dictionnaire D'archéologie Chrétienne Et de Liturgie, Publié Par Le R. P. Dom Fernand Cabrol ... Avec Le Concours D'un Grand Nombre de Collaborateurs Fernand Cabrol,1913 **Saint Paul** Béda Rigaux,1956 **Le Nouveau Testament**,1847 The Priest Barracks Guillaume Zeller,2017-05-03 At the Nazi concentration camp Dachau three barracks out of thirty were occupied by clergy from 1938 to 1945 The overwhelming majority of the 2 720 men imprisoned in these barracks were Catholics 2 579 priests monks and seminarians from all over Europe More than a third of the prisoners in the priest block died there The story of these men which has been submerged in the overall history of the concentration camps is told in this riveting historical account Both tragedies and magnificent gestures are chronicled here from the terrifying forced march in 1942 to the heroic voluntary confinement of those dying of typhoid to the moving clandestine ordination of a young German deacon by a French bishop Besides recounting moving episodes the book sheds new light on Hitler s system of concentration camps and the intrinsic anti Christian animus of Nazism **Le Nouveau Testament de N.S. literature or media studies a new book by Samuel Weber is essential reading Singularity is no exception Bringing together two decades of his essays it hones in on the surprising implications of the singular and its historical relation to the individual in politics theology economics psychoanalysis and literature Although singularity has long been a keyword in literary studies and philosophy never has it been explored as in this book which distinguishes singularity as an aporetic notion from individuality with which it remains historically closely tied To speak or write of the singular is problematic Weber argues since once it is spoken of it is no longer strictly singular Walter Benjamin observed that singularity and repetition imply each other This approach informs the essays in Singularity Weber notes that what distinguishes the singular from the individual is that it cannot be perceived directly but rather experienced through feelings that depend on but also exceed cognition This interdependence of cognition and affect plays itself out in politics economics and theology as well as in poetics Political practice as well as its theory have been dominated by the attempt to domesticate singularity by subordinating it to the notion of individuality Weber suggests that this political tendency draws support from what he calls the monotheological identity paradigm deriving from the idea of a unique and exclusive Creator God Despite the secular tendencies usually associated with Western modernity this paradigm continues today to inform and influence political and economic practices often displaying self destructive tendencies By contrast Weber reads the literary writings of Hölderlin Nietzsche and Kafka as exemplary practices that put singularity into play not as fiction but as friction exposing the self evidence of established conventions to be responses to challenges and problems that they often prefer to obscure or ignore
