Rasch, 2018-05-15 Having information is key for most political decisions both for decision makers and societal actors This is especially crucial in democratic countries where external stakeholders are invited to participate in decision making processes Assuming that every actor that gets involved in decision making processes has a particular lobbying goal there is a heterogeneous set of actors competing against each other to provide information to the decision makers This competition leads some stakeholders to be more successful in achieving their goals than others Frames and the framing of information play an important role in such lobbying success In this book Daniel Rasch questions whether and if so how information impacts lobbying success and shows how various actors perform in three instances of European decision making He does so by combining findings from a qualitative content analysis with the results of a cross case analysis using the quantified qualitative data The new dataset contains a representative sample of over 200 position papers from EU level and national consultations press releases and evidence from national stakeholders in Germany Sweden and the United Kingdom Lobbying Success in the European Union effectively bridges research on interest mediation and framing studies and offers a new model for measuring stakeholders success This new and pragmatic approach to study lobbying success using a traceable and easy to use instrument can be adapted to any policy analysis and any issue      **Congo Stories** John Prendergast, Fidel

Bafilemba, 2025-04-08 From the author of the New York Times bestselling and award winning Not on Our Watch John Prendergast co writes a compelling book with Fidel Bafilemba with stunning photographs by Ryan Gosling revealing the way in which the people and resources of the Democratic Republic of Congo have been used throughout the last five centuries to build develop advance and safeguard the United States and Europe The book highlights the devastating price Congo has paid for that support However the way the world deals with Congo is finally changing and the book tells the remarkable stories of those in Congo and the United States leading that transformation The people of Congo are fighting back against a tidal wave of international exploitation and governmental oppression to make things better for their nation their neighborhoods and their families They are risking their lives to resist and alter the deadly status quo And now finally there are human rights movements led by young people in the United States and Europe building solidarity with Congolese change makers in support of dignity justice and equality for the Congolese people As a result the way the world deal with Congo is finally changing Fidel Bafilemba Ryan Gosling and John Prendergast traveled to Congo to document some of the stories not only of

the Congolese upstanders who are building a better future for their country but also of young Congolese people overcoming enormous odds just to go to school and help take care of their families Through Gosling s photographs of Congolese daily life Bafilemba s profiles of heroic Congolese activists and Prendergast s narratives of the extraordinary history and evolving social movements that directly link Congo with the United States and Europe Congo Stories provides windows into the history the people the challenges the possibilities and the movements that could change the course of Congo s destiny Chosen by Amazon as the Best Book of the Month for December 2018 in Biographies Memoirs History and Nonfiction Featuring the life story of Dr Denis Mukwege winner of the 2018 Nobel Peace Prize *Election 2013, Results in Shri Lanka ,at Tamils , Jaffna zone ( Shrilanka Minorities ) , the win of 30 seats by Tamil Politician , must not understand that it will be win of Tamil problems Tamil rights of living with dignity, . with prospect Ruhel Chisty FRACI CChem A ,MRSC CChem A,*

**Congressional Record** United States. Congress,2012 Library Technical Services Stacey Marien,2020-08-15

Libraries are experiencing major changes concerning the role of technical services. Technical services librarians also are being challenged about their relevance and role, sometimes revealed by a lack of understanding of the contribution technical services librarians make to building and curating library and archival collections. The threats are real: relocation from central facilities, the dramatic shift to electronic resources, budgetary constraints, and outsourced processing. As a result, technical services departments are reinventing themselves to respond to these and similar challenges while embracing innovative methods and opportunities to advance librarianship in the twenty-first century. *Library Technical Services* provides case studies that highlight difficult realities yet embrace exciting opportunities such as space reclamation, evolving vendor partnerships, metadata retraining, and managing personnel, special collections, and distance education. Written for catalog and metadata librarians and managers of technical services units, this book will inspire and provide practical advice and examples for solving issues many libraries are facing today.

*Atlas of Knowledge* Katy Borner, 2015-03-20 The power of mapping principles for visualizing knowledge illustrated by many stunning large-scale full-color maps. Maps of physical spaces locate us in the world and help us navigate unfamiliar routes. Maps of topical spaces help us visualize the extent and structure of our collective knowledge; they reveal bursts of activity, pathways of ideas, and borders that beg to be crossed. This book, from the author of *Atlas of Science*, describes the power of topical maps, providing readers with principles for visualizing knowledge and offering as examples forty large-scale and more than 100 small-scale full-color maps. Today, data literacy is becoming as important as language literacy. Well-designed visualizations can rescue us from a sea of data, helping us to make sense of information, connect ideas, and make better decisions in real time. In *Atlas of Knowledge*, leading visualization expert Katy Borner makes the case for a systems science approach to science and technology studies and explains different types and levels of analysis. Drawing on fifteen years of teaching and tool development, she introduces a theoretical framework meant to guide readers through user and task analysis, data preparation, analysis, and visualization, visualization deployment, and the interpretation of science maps. To exemplify the framework, the *Atlas* features striking and enlightening new maps from the popular *Places Spaces Mapping Science* exhibit that range from Key Events in the Development of the Video Tape Recorder to Mobile Landscapes, Location Data from Cell Phones for Urban Analysis, to Literary Empires, Mapping Temporal and Spatial Settings of Victorian Poetry, to Seeing Standards: A Visualization of the Metadata Universe. She also discusses the possible effect of science maps on the practice of science.
