

Sample Doctor Note

Patient's Information

Patient Name: John Doe

Address: 123 Health St, Suite 100, Wellness City, ST 12345

Date of Visit: October 3, 2050

Clinic/Facility Name: HealthFirst Medical Center

To Whom It May Concern,

This note serves to confirm that the patient, John Doe, was evaluated at HealthFirst Medical Center on October 3, 2050. Following a thorough examination, the patient has been diagnosed with Acute Bronchitis. As their treating physician, I recommend that John Doe refrain from attending work or school and abstain from any physically demanding activities from October 3, 2050, to October 10, 2050, to ensure proper recovery.

A follow-up consultation is advised if symptoms persist beyond this period or worsen. We will be closely monitoring the patient's progress during this time.

If you require further clarification or additional information, please do not hesitate to contact our office at [You Company Number].

I appreciate your understanding.

Sincerely,

Signature

Dr. [Your Name] M.D

Pretrained Transformers for Text Ranking Jimmy Lin,Rodrigo Nogueira,Andrew Yates,2022-06-01 The goal of text ranking is to generate an ordered list of texts retrieved from a corpus in response to a query Although the most common formulation of text ranking is search instances of the task can also be found in many natural language processing NLP applications This book provides an overview of text ranking with neural network architectures known as transformers of which BERT Bidirectional Encoder Representations from Transformers is the best known example The combination of transformers and self supervised pretraining has been responsible for a paradigm shift in NLP information retrieval IR and beyond This book provides a synthesis of existing work as a single point of entry for practitioners who wish to gain a better understanding of how to apply transformers to text ranking problems and researchers who wish to pursue work in this area It covers a wide range of modern techniques grouped into two high level categories transformer models that perform reranking in multi stage architectures and dense retrieval techniques that perform ranking directly Two themes pervade the book techniques for handling long documents beyond typical sentence by sentence processing in NLP and techniques for addressing the tradeoff between effectiveness i e result quality and efficiency e g query latency model and index size Although transformer architectures and pretraining techniques are recent innovations many aspects of how they are applied to text ranking are relatively well understood and represent mature techniques However there remain many open research questions and thus in addition to laying out the foundations of pretrained transformers for text ranking this book also attempts to prognosticate where the field is heading *The Medical Brief* ,1880

ChatGPT in Scientific Research and Writing Jie Han,Wei Qiu,Eric Lichtfouse,2024-09-13 Most scientists are constantly under pressure for reading essential literature designing new experiments writing successful proposals and papers and meeting deadlines However imagine that your brain is connected to the entire human knowledge and can extract instantly essential information for discovery Imagine that research tasks that took days to months can now be done within few seconds This is not science fiction anymore since the onset of generative artificial intelligence tools such as ChatGPT This book explains concisely and simply how to use ChatGPT for identifying new results crafting titles editing language interpreting figures creating visuals and refining methods ChatGPT even allows for brainstorming designing experiments writing proposals responding to reviewers and evaluating research papers Written for researchers with no background in coding or prompt engineering this book provides the skills necessary to navigate the changing landscape of scientific research In particular you will learn how to leverage ChatGPT s unique capabilities to generate ideas streamline literature reviews and craft compelling narratives In short this book empowers you to unlock the potential of ChatGPT boosting productivity and take your scientific research and writing to new heights

Taming China's Wilderness Patrick Fuliang Shan,2016-04-01 Until the beginning of the twentieth century the Chinese province of Heilongjiang historically known as Northern Manchuria remained a sparsely populated territory on

the northeastern frontier For about two centuries the rulers of the Qing dynasty 1644 1912 whose historical homeland was in Manchuria enforced a policy that prohibited Chinese immigration and settlement and maintained the region's reputation as the Great Northern Wilderness Yet as this new study demonstrates by the early 20th century the Chinese government reversed its previous policy and began to encourage immigration into Heilongjiang turning a backwater into a thriving frontier region Covering the period between the reversal of the anti immigration policy around 1900 and the Japanese occupation of Heilongjiang in 1931 this book investigates this distinctive frontier and the impact upon it of the settlement of four million Chinese settlers during a thirty one year period Following an introduction providing a background to the period covered the study is divided into five chapters The first chapter looks at patterns of immigration settlement and the features of the newly developing frontier society Chapter two then deals with land possession tenure and relations amongst the newly arrived settlers The third chapter discusses the transformation of the ethnic make up of the region and the move from a largely nomadic culture to one of settled farmers Chapter four probes the social problems these changes caused particularly banditry The final chapter revises commonly held notions about Russian dominance of the region arguing that Russia's influence was limited to the railway zone Taken together these chapters not only provide an overview of a territory undergoing rapid and sustained change but also provide insights into wider Chinese history as well as adding to the on going scholarly interest in border and frontier studies

Health Professional and Patient Interaction E-Book Amy M. Haddad, Regina F. Doherty, Ruth B. Purtilo, 2018-09-11 Easily navigate through the complicated and challenging world of daily on the job human interactions with Health Professional and Patient Interaction 9th Edition Covering strategies for effective communication this time tested guide offers the tools you need to establish positive patient and interprofessional relationships built on respect It not only covers respectful actions and good decision making but also demonstrates how those decisions directly shape your on the job success Practical examples and authentic scenarios highlight how to apply respect and professionalism to coworkers and patients of various ages and various backgrounds across a wide spectrum of healthcare environments It's the foundation you need to effectively and successfully communicate on the job Overall emphasis on respect sets up a basis for building positive relationships with patients and fellow health professionals through good decision making UNIQUE Authentic scenarios and examples demonstrate strategies and tools for effective communication with patients of all ages in a wide range of health care settings UNIQUE Interdisciplinary approach addresses issues that apply to many different healthcare disciplines to help you identify with your specific field as well as recognize themes that apply across the healthcare spectrum Authentic patient cases give you a more personal connection as to how the various communications and actions discussed in the text affect the patient Reflections Questions throughout the text challenge you to apply critical thinking skills and your personal experience to different scenarios Questions for Thought and Discussion at the end of each section help you apply your knowledge to a variety of situations UNIQUE New chapter on
