Directions: There is an element on the periodic table that does not want to be located. Actually, this element is "hiding out." In an effort to elude you, the element has provided many false identities and it is your job to follow-up on all of these to locate it. However, the element is not as smart as it thinks; we know that all of these false identities are connected to each other. Therefore, providing the correct identity for each clue below will ultimately help you find the element (this means you should use each answer as a reference to get the next one). So, if you make just one mistake it will affect all clues and identities that follow; thus allowing this perpetrator to get away.

BE SAFE, BE SMART, BE VIGILANT!!!

Periodic Tables Most Wanted Answers:

What Price Utopia? Daphne Patai, 2008-05-20 This volume brings together for the first time more than two dozen of Daphne Patai's incisive and at times satirical essays dealing with the academic and intellectual orthodoxies of our time. Patai draws on her years of experience in an increasingly bizarre academic world where a stifling politicization threatens genuine teaching and learning. Addressing the rise of feminist dogma, the domination of politics over knowledge, the shoddy thinking and moralizing that hide behind identity politics, and the degradation of scholarship, her essays offer a resounding defense of liberal values. Patai takes aim at the unctuous and also dangerous posturing that has brought us restrictive speech codes, harassment policies, and a vigilante atmosphere while suppressing plain speaking about crucial issues. But these trenchant essays are not limited to academic life; for the ideas and practices popularized there have spread far beyond campus borders. Included are two new pieces written especially for this volume: one on the bullying tactics of a famous feminist and the other on Islamic fundamentalism.

Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2011-10-30 This Handbook presents both a theoretical and practical approach to conducting social science research on and about women. It develops an understanding of feminist research by introducing a range of feminist epistemologies, methodologies, and emergent methods that have had a significant impact on feminist research practice and women's studies scholarship. Contributors to the Second Edition continue to highlight the close link between feminist research and social change and transformation. The new edition expands the base of scholarship into new areas with 12 entirely new chapters on topics such as the natural sciences, social work, the health sciences, and environmental studies. It extends discussion of the intersections of race, class, gender, and globalization, as well as transgender, transsexualism, and the queering of gender identities. All 22 chapters retained from the first edition are updated with the most current scholarship, including a focus on the role that new technologies play in the feminist research process.

Ensouling Our Schools Jennifer Katz, 2018-06-04 In an educational milieu in which standards and accountability hold sway, schools can become places of stress, marginalization, and isolation instead of learning communities that nurture a sense of meaning and purpose. In *Ensouling Our Schools*, author Jennifer Katz weaves together methods of creating schools that engender mental, spiritual, and emotional health while developing

intellectual thought and critical analysis. Kevin Lamoureux contributes his expertise regarding Indigenous approaches to mental and spiritual health that benefit all students and address the TRC Calls to Action.
