## Service Receivable and Inventory—Add-On Module\*

Better manage the complexity of your service business with the Service Receivable and Inventory Module for Sage Master Builder.

The Service Receivable and Inventory Module provides complete service management and inventory functionality that integrates with Sage Master Builder accounting and estimating, fixed assets, work order systems that can share when installing multiple service management, accounting, estimating, and inventory systems. This integration between modules gives you real-time, up-to-the-minute inventory management.

### Service Receivables

The Service Receivables portion of this module makes it easy to handle service contracts, service orders, dispatch, on-call work orders, quotes, and cost-of-sale or billing of service work materials.

Save time by efficiently managing work orders without entering duplicate information into invoices and estimating. Easily turn your estimates into service work orders with the Estimating Basic module. Quickly review information about equipment installed at multiple client sites. Generate service agreement and warranty work. Manage your service technicians' assign work orders based on client location, priority, and technician load and expertise.

Because Service Receivables fully integrates with Inventory, you can keep inventory up to date at real time based on service work completed.

\*Add-on modules are sold separately.
