The Trap of Proximity Violence Ignazia Bartholini, 2020-08-30 This book aims at shifting the emphasis from a general vision of gender based violence to a more opaque yet equally destructive one that related to proximity violence The first type of violence is exercised in multiple situations and in the generality of relationships experienced by people involving others who are both strangers to and intimate with each other Proximity violence provides and includes a fiduciary kind of proximity of dependent intimacy where the trust that the victim places in the other her tormentor favours the exercise of violence itself allowing it to take place thus making it practically imperceptible when not actually normal in extreme cases In turn this confidence is comparable to a veil of Maja which in conditions of vulnerability typical of victims attenuates the consequences of the violence undergone or the omens of what becomes violent action The conceptual triad proximity violence vulnerability resistance resilience is explored here in the three main chapters and in the details aimed at identifying in the final chapter the mutual interconnections This book will be of particular interest and use to undergraduate and graduate students of sociology and gender studies *Brill's*

Companion to the Reception of Senecan Tragedy, 2016-02-02 In Brill's *Companion to the Reception of Senecan Tragedy* Eric Dodson Robinson incorporates essays by specialists working across disciplines and national literatures into a subtle narrative tracing the diverse scholarly literary and theatrical receptions of Seneca's tragedies. The tragedies influential throughout the Roman world well beyond Seneca's time plunge into obscurity in Late Antiquity and nearly disappear during the Middle Ages. Profound consequences follow from the rediscovery of a dusty manuscript containing nine plays attributed to Seneca: it is seminal to both the renaissance of tragedy and the birth of Humanism. Canonical Western writers from Antiquity to the present have revisited, transformed and eviscerated Senecan precedents to develop in Dodson Robinson's words competing tragic visions of agency and the human place in the universe.

The Agricultural Cooperative in the Framework of the European Cooperative Society Georg Miribung, 2020-04-09 This book assesses the Statute for a European Cooperative Society (SCE) regarding agricultural activities by comparing how specific questions arising in this context must be dealt with under the Italian and Austrian legal systems. In this regard Council Regulation (EC) No 1435/2003 of 22 July 2003 on the Statute for a European Cooperative Society (SCE) is used as a tool for the structured analysis of various aspects of agricultural cooperatives. However, a comparison is only meaningful if the results are made comparable on the basis of a previously defined standard. Accordingly, the study uses on one hand a cooperative model developed by European legal scholars that defines general guidelines on how cooperatives should function (PECOL). On the other, the results are presented in connection with economic considerations to discuss how efficient rules can be developed.

Wages for Housework Louise Toupin, 2018-09-20 Revolutionary feminism is resurging across the world. But what were its origins? In the early 1970s the International Feminist Collective began to organise around the call for recognition of the different forms of labour performed by women. They paved the way for the influential and controversial feminist campaign Wages for Housework, which made great strides towards driving debates in social reproduction and the gendered aspects of labour. Drawing on extensive archival research, Louise Toupin looks at the history of this movement between 1972 and 1977, featuring unpublished conversations with some of its founders, including Silvia Federici and Mariarosa Dalla Costa, as well as activists from Italy, Germany, Switzerland, the United States and Canada. Encompassing rich theoretical traditions including autonomism, anti-colonialism and feminism, whilst challenging both classical Marxism and the mainstream women's movement, the book highlights the power and originality of the campaign. Among their many innovations, these pathbreaking activists approached gender, sexuality, race and class together in a way that anticipated intersectionality and had a radical new understanding of sex work.
