Learning To Talk Malcolm McIntosh, Sandra Waddock, Georg Kell, 2017-09-29 The UN Global Compact complements other corporate citizenship initiatives by promoting dialogue on the relationship between business and society At the same time it is the only truly global corporate citizenship initiative It is not an auditable standard indeed it is not a standard or a code in the way that these are normally viewed It is a set of principles through which business and the United Nations can work in partnership for global social development For some businesses it is a simplified codification of their existing policies and management practices but for many engagement represents a challenge and an opportunity to raise their game by aligning profitability with the common good As the only genuinely global corporate citizenship initiative the Global Compact draws its moral authority from the UN Secretary General and its moral and political legitimacy from the UN as the only global political body It can be viewed as a series of nested networks involving the Secretary General's Office the ILO UNEP UNHCHR UNDP and UNIDO business NGOs and labour It can variously be described as an international learning network as a social network of people and organizations engaged in a global conversation as a global public policy network and as a multi stakeholder dialogue It is all of these things but more than anything its greatest success has been in providing a convening platform for a growing global conversation about social development among a variety of actors However the Global Compact is viewed it is time to reflect on the first tentative steps of an initiative born in the aftermath of the Cold War in the triumph of global economic liberalism and mass demonstrations against globalisation In its first few years the world has experienced 9 11 and the Iraq War not forgetting the forty or so civil wars that are ongoing at this time Whatever is written about the UN Global Compact or its success will be tentative But there can be some serious reflection on its aims and origins some telling of stories of engagement and discussion on how this initiative has quickly become an important reference point in the dialogue on global and corporate governance

Comparative Characterization in the Sermon on the Mount Arren Bennet Lawrence, 2017-03-24 The Sermon on the Mount contains many comparisons In this book the functions of these comparisons are studied by the methodology called comparative characterization Characterization is the way a character is characterized in a narrative Comparative characterization is the characterization of a character using comparisons In comparative characterization another character is used as a foil to bring out a characteristic trait of a concerned character Jesus characterized the ideal disciple in the Sermon on the Mount with many descriptions and imperatives To characterize the ideal disciple Jesus used many comparisons and highlighted the characteristic features that embody the ideal disciple The many comparisons used in the Sermon on the Mount are identified in this study through comparative characterization In addition the teleological purpose of the comparisons which is to play as

foil to the characterization of the ideal disciple is identified and highlighted Thus this study identifies Jesus characterization of the ideal disciple and his complex portrayal of the ideal disciple with the many uses of comparisons in the descriptions and imperatives of Jesus in the Sermon on the Mount **Confessions of a Corporate Trainer** Jonathan Halls,2019-04-23
