Reflections Of Shapes Ansers:

General Ability Tests Alan Horsfield, Elaine Horsfield, 2004 Excel Test Skills General Ability Tests Year 5 is the third in a four book series for Years 3-6 which help students with the skills they need to excel in general ability tests. General ability testing covers areas such as logic, general knowledge and reasoning and forms part of many primary school tests used throughout Australia. The book contains sample questions covering all the main question types found in Year 5 general ability tests, a section of practice questions with hints on how to answer each different type of question, twelve practice tests to measure progress, helpful advice for sitting general ability tests, answers to all questions plus explanations when required. An amount of mystery surrounds general ability testing. This is probably because it is not an actual subject such as Science or Mathematics. General ability testing is based upon the student's ability to think and reason but most of the questions are based on normal classroom subject matter. This practice book is intended to demystify GA tests thereby giving the student the confidence to respond positively to the test and maximise his/her score.
