Digital Transformation for Promoting Inclusiveness in Marginalized Communities Zhou, Munyaradzi, Mahlangu, Gilbert, Matsika, Cyncia, 2022-06-24 One of the realities characterizing the globe is the exclusion of marginalized communities in digital transformation. Their exclusion has resulted in a lack of participation in the digital space which has catastrophic consequences on the digital economy. To promote digital inclusiveness in marginalized communities, there is a need to deconstruct the illusion that digital transformation is an urban phenomenon. *Digital Transformation for Promoting Inclusiveness in Marginalized Communities* discusses how digital transformation can be utilized to promote inclusiveness in marginalized communities by exploring opportunities and challenges and determining change mechanisms required to enhance digital transformation in marginalized communities. Covering a range of topics such as augmented reality and remote communities, this reference work is ideal for government employees, technologists, policymakers, industry professionals, researchers, scholars, academicians, instructors, and students.

Ethics and Accountable Governance in Africa's Public Sector, Volume I Kemi Ogunyemi, Isaiah Adisa, Robert E. Hinson, 2022-05-19 This book is an excellent resource for academics and students interested in ethics and accountability in the public sector as well as for practitioners, NGO workers, and policymakers. Over the last decades, issues in ethical leadership have become central to the global call for higher moral standards on the part of corporate organisations and their leaders and managers. The book's chapters investigate these concerns in Africa where governance gaps often reflect poor leadership. Parenthetically, in 2001 a UNDP report found difficulties in applying anti-corruption laws and managing public institutions in the continent. Twenty years on, significant efforts have been made to improve the situation, yet extensive challenges still subsist. In this first volume, contributors discuss the practice of ethics, anti-corruption, and performance management and propose solutions, some general to the continent and others country-specific.

The Government of Disasters Lydie Cabane, 2023-09-22 This book examines the history of disaster management in South Africa, showing how experts, professionals, and policymakers have crafted and implemented disaster policies from the mid-twentieth century to the present day. It assesses the ways in which states become concerned with disasters, the extent to which disaster management contributes toward state formation, and who and what disaster management protects. It also considers the ways in which the politics of protection continuously shift as political regimes change. In telling the story of how policies surrounding disaster protection have evolved in South Africa, the book demonstrates how the security apparatus that shaped disaster management was re-oriented in the twenty-first century towards development alongside bureaucratic reforms that aimed to democratize the state. By examining the wider context of the globalization of disaster management, it also highlights the often-unrecognised role of experts from Africa, Latin America, and Asia in shaping global disaster policies. The book will appeal to scholars and students of disaster governance, public policy, state formation, and African politics.
