## **Related Reading Discussion Kdl Kent District Library:**

Introduction to Public Librarianship, Third Edition Kathleen de la Pena McCook, Jenny S. Bossaller, Felton Thomas Jr., 2018-12-18 Put simply there is no text about public librarianship more rigorous or comprehensive than McCook's survey. Now the REFORMA Lifetime Achievement Award winning author has teamed up with noted public library scholar and advocate Bossaller to update and expand her work to incorporate the field's renewed emphasis on outcomes and transformation. This essential tool Library Journal remains the definitive handbook on this branch of the profession. It covers every aspect of the public library from its earliest history through its current incarnation on the cutting edge of the information environment including statistics, standards, planning, evaluations and results, legal issues, funding and politics, organization, administration and staffing, all aspects of library technology from structure and infrastructure to websites and makerspaces, adult services, youth services and children's services, associations, state library agencies and other professional organizations, global perspectives on public libraries and advocacy, outreach and human rights. Exhaustively researched and expansive in its scope, this benchmark text continues to serve both LIS students and working professionals.

**Programming for Adults** Raymond Ranier, 2005 As the mission statements of libraries across the nation change to reflect the realities of post liberal America and its emphasis on economic values, librarians have had to pick up their long standing paradigm and move it in an endless shuffle from knowledge stewardship to information broker to entertainment director. Many library boards have made it clear that the public library, especially in smaller communities, can earn its keep only by becoming the center of educational, informational and entertainment possibilities for their taxpayers. This has necessitated a ten year learning curve unprecedented in professional life. Few librarians, even those being schooled today in our graduate schools, are prepared to shift into high gear when it comes to conceptualizing, planning, paying for and evaluating public programs for their patrons. Unlike its predecessors that leave ideas for public programming to the imagination, *Programming for Adults* lists ideas, names names and massages the already fertile librarian imagination to the challenge and creativity inherent in adult programming. Legal issues are discussed, possible pitfalls are flagged and evaluative follow ups are suggested. The advice put forth in this book can help you put on your show to the satisfaction of your boss and more importantly to the accolades of your public.

Creating and Promoting Lifelong Learning in Public Libraries Donna L. Gilton, 2016-06-21 *Creating and Promoting Lifelong Learning in Public Libraries: Tools and Tips For Practitioners* is the sequel to *Lifelong Learning in Public Libraries: Principles, Programs and People*. On the one hand, *Lifelong Learning in Public Libraries* focuses on the information needs and the developmental and psychological characteristics of diverse library users of all ages. It endorses the use of ILI to promote lifelong learning in public libraries both by borrowing techniques from academic and school libraries and by building on existing public library traditions of programming and outreach. This book also compares lifelong learning in public libraries to informal and nonformal education in museums, community organizations

and agencies places of worship and other organizations In addition Lifelong Learning in Public Libraries describes basic steps that librarians can execute in order to get started On the other hand Creating and Promoting Lifelong Learning in Public Libraries focuses much more on how public librarians can specifically plan and implement their instruction with chapters on planning for instruction using teaching methodologies teaching with and about technology and bringing ILI together with more traditional public library services programming and activities such as reference and Readers Advisory services bibliotherapy and cultural and literacy programming Changes in ILI standards and comparisons of ILI with basic reading media digital and cultural literacies are also described Both books together should act as basic manuals for public librarians who promote lifelong learning Creating and Promoting Lifelong Learning in Public Libraries also have helpful teaching hints for all librarians and other professionals who teach in a variety of settings     *Reference and Information Services in the 21st Century* Kay Ann Cassell, Uma Hiremath, 2006 Specifies the top resources in major subject areas and genres and shows students how to approach the reference transaction by matching specific types of questions to the best available resources regardless of format     Library Resources for the Blind & Physically Handicapped ,2000 A directory of NLS network libraries and machine lending agencies     *Library Hotline* ,2002
