The Listener, 1988 *Geographic Realities in the Middle East and North Africa* George Joffé, Richard Schofield, 2020-10-25 Celebrating the work of Keith McLachlan, a well known and much admired geographer of the Middle East and North Africa, this book combines three interrelated topics that define the region. The Middle East has been integral to the growth of the global oil industry, an aspect of its evolution since 1908 which has had profound geopolitical implications as well. The territory was also the arena for the last European experiment in colonialism, a development that has left its legacy even today. And historically it has been the location of the great hydraulic civilisations of Egypt and Mesopotamia, yet is still dependent on the flow of its two major river systems, the Nile and the Tigris-Euphrates, in an era of impending climate crisis. These themes form the essence of the themes that are discussed in the chapters that follow. Keith McLachlan played a significant role in our understanding of these themes and of their effects in the contemporary world, as the comments of those who worked with him and have contributed towards this book reveal.

Examining agriculture, oil and state construction, this volume offers an insight into how the contemporary Middle East was constructed after the collapse of the Ottoman Empire. It is a key resource for scholars and students interested in geopolitics and the geography of the Middle East.

Routledge Handbook of Sport, Leisure, and Social Justice Stefan Lawrence, Joanne Hill, Rasul Mowatt, 2024-05-23 This is the first book to explore in breadth and in depth the complex intersections between sport, leisure and social justice. This book examines the relations of power that produce social inequalities and considers how sport and leisure spaces can perpetuate those relations or act as sites of resistance and makes a powerful call for an activist scholarship in sport and leisure studies. Presenting original theoretical and empirical work by leading international researchers and practitioners in sport and leisure, this book addresses the central social issues that lie at the heart of critical social science, including racism, sexism, homophobia, transphobia, ableism, religious persecution, socio-economic deprivation and the climate crisis, and asks how these issues are expressed or mediated in the context of sport and leisure practices. Covering an incredibly diverse range of topics and cases, including sex testing in sport, sport for refugees, pedagogical practices in physical education, community sport development events and human rights and athlete activism, this book also surveys the history of sport and social justice research as well as outlining theoretical and methodological foundations for this field of enquiry. The Routledge Handbook of Sport, Leisure and Social Justice is an indispensable resource for any advanced student, researcher, policymaker, practitioner or activist with an interest in the sociology, culture, politics, history
