

HANDOUT 32-2: Reinforcing Content Mastery Student's Name
REINFORCEMENT

IN THE FIELD

Read the following real-life situation. Then answer the questions that follow.

Your unit responds to a 911 call by a mother who reports that her 11-year-old son "has fallen from his tree house." When you arrive on the scene, the mother takes you into the backyard, where you see the boy grimacing in pain. He is holding his right leg. "It hurts all the way down to my toes," says the boy.

You introduce yourself and find out that the boy's name is Timmy. His friend Richie breaks into the conversation. "We were carrying stuff into the tree house, and Timmy fell off the ladder." You see wooden rungs nailed to the tree trunk, and ask Richie to indicate where Timmy slipped. Richie indicates a rung about eight feet off the ground. You ask Timmy if he remembers how he landed. "I think I hit my feet first," he says. "It hurt so much that I couldn't stand."

1. What mechanism caused Timmy's injuries?
2. What bones or joints do you suspect have been injured? *foot and ankles*
3. What type of splint will you use to immobilize Timmy? Why?
4. What factors must you take into account because of Timmy's age?

Instructors Resource Manual Daniel Elling, Michael O'Keefe, Bob Elling, 2001-12

Strengthening Mathematical Reasoning among Middle School Students with Hidden or Unmet Potential Peter Sheppard, Melissa A. Gallagher, 2019-11-08 This work seeks to contribute to the national dialogue regarding best practices in teaching middle school mathematics The authors are committed to improving mathematics achievement and opportunities for students whose inherited circumstances place them at a perceptible disadvantage Most refer to said students as risks We hold the position that these students irrespective of their

backgrounds possess Hidden or Unmet Potential and the unveiling of their potential can be accelerated when they are exposed to high quality mathematics teaching This book is a practitioner s guide to creative mathematics activities centered on algebraic proportional and geometric reasoning aligned with mathematics standards This approach has the potential to accelerate the mathematical confidence and accentuate the mathematical proficiencies of students
