You Are Your Child's First Teacher Rahima Baldwin Dancy, Rahima Baldwin, 2011-03-16 Nowadays parents are bombarded by any number of approaches about how to be with their children YOU ARE YOUR CHILD'S FIRST TEACHER introduces a new way of understanding the human being so that parents can be best equipped to serve as their own children's best teachers Chapters include Caring for the Newborn Helping Your Toddler's Development The Development of Fantasy and Creative Play Nourishing Your Child's Imagination Rhythm and Discipline in Home Life Readiness for School and more From the Trade Paperback edition **They stopped sending their kids to school** Michael Wenkart, 2014-04-09 Is homeschooling a reasonable alternative to the classical school system Estimates suggest there are at least 1.5m Americans who have turned to homeschooling for their children Whether this is due to a perceived failing in the state education system religious or political convictions or the need to accommodate some special need of the student or family it is an issue that causes controversy and undoubtedly raises very serious questions about the state of future generations of American citizens Advocates of the system claim it improves the education of the child shapes it more to their needs and aptitudes and leads to a more rounded individual experience Critics claim it undermines the public school system makes children more narrow and prejudiced in their outlook and doesn't offer any significant advantages academically So who is right As with all such debates there is a high degree of subjectivity involved when assessing claims and counterclaims It is difficult to substantiate or disprove a lot of these and not enough objective scientific research has been conducted to come up with conclusive results either way Many who have used the system are very happy with the results though they assert it is hard work and requires lots of commitment and often cost A few are honest enough to admit there are considerable drawbacks and that the concept is not suitable for everyone adults or children A lot of its critics are opposed to it on political grounds claiming it is a reactionary idea that breeds inequality and perpetuates right wing principles Others oppose the association with religious beliefs though there is no strong evidence that this is a major factor in most decisions to homeschool Homeschooling has had a long hard road to acceptance It has been equated with truancy and illegality and has been criticized and pilloried often by people who know little about it *Heaven on Earth* Sharifa Oppenheimer, 2006 **Genius at Home. A Play in Three Acts** Elizabeth A. Drew, 1935 **Homeschooling** Michael Wenkart, 2014-03-20 Estimates suggest there are around 1.5m Americans who have turned to homeschooling for their children and this is probably a significant underestimate Whether this is due to a perceived failing in the state education system religious or political convictions or the need to accommodate some special need of the student or family it is an issue that causes controversy and undoubtedly raises very serious questions about the state of future generations of American citizens Advocates of the system claim it improves the education of the child shapes it more to their needs and aptitudes and leads to a more rounded individual experience Critics claim it undermines the public school system makes children more narrow and prejudiced in their outlook and doesn't offer any

significant advantages academically So who is right As with all such debates there is a high degree of subjectivity involved when assessing claims and counterclaims It is difficult to substantiate or disprove a lot of these and not enough objective scientific research has been conducted to come up with conclusive results either way Many who have used the system are very happy with the results though they assert it is hard work and requires lots of commitment and often cost A few are honest enough to admit there are considerable drawbacks and that the concept is not suitable for everyone adults or children A lot of its critics are opposed to it on political grounds claiming it is a reactionary idea that breeds inequality and perpetuates right wing principles Others oppose the association with religious beliefs though there is no strong evidence that this is a major factor in most decisions to homeschool Homeschooling has had a long hard road to acceptance It has been equated with truancy and illegality and has been criticized and pilloried often by people who know little about it Its practitioners have been branded as kooks religious fanatics right wing pedagogues and many other things Some of these accusations might be founded but the average homeschooler is probably none of these In fact they are probably just that average Many will agree it is a parent s right to give their children the best possible education and it is an issue of choice freedom and independent thinking Whether this is largely beneficial or detrimental will ultimately be down to the perspective of individuals as they consider the pros and cons
