Lederer, 2014-04-08 This book the English version of *La traduction aujourd'hui* Hachette 1994 describes the interpretive theory of translation developed at the Paris École Supérieure d'Interprètes et de Traducteurs ESIT over the last 35 years. The theory identifies the mental and cognitive processes involved in both oral and written translation understanding the text de-verbalizing its language re-expressing sense. For the purposes of translation languages are a means of transmitting sense they are not to be translated as such. Although translation involves the use of correspondences translators generally set up equivalence between text segments. The synecdochic nature of both languages and texts a phenomenon discussed in the book explains why translation is possible across language differences. The many practical problems faced by translators the difference between translation exercises used as a language teaching tool and professional translation translating into a foreign language and machine translation as compared to human translation are also discussed. **Marseille & Western Provence Footprint Focus Guide** Kathryn Tomasetti, Tristan Rutherford, 2014-04-10 Footprintfocus Marseille and Western Provence explores this popular French destination which was European Capital of Culture 2013.
