human being and what our role is in the totality of the universe The material includes a discussion of the nature of space and time as well as a view of more and more subtle levels of realization **The Alchemy of Freedom** A. H. Almaas, 2017-03-28 Well known spiritual teacher A H Almaas uses the metaphor of the mysterious philosopher s stone to discuss a tremendous liberating power that leads to endless enlightenment For millennia alchemists sought the philosopher s stone the miracle substance believed to be the key to all the secrets of existence The quest was fueled by some of the prime questions of human existence What am I Why am I here How has this world come to be A H Almaas shows that the tremendous liberating power of the mysterious philosopher s stone is closer to us than we realize In fact it is the true nature of all reality in all times and all places without being limited to being anything in particular Through the philosopher s stone real transformation can happen our consciousness can become free and we can open to all the possibilities of reality Almaas discusses the factors that are involved in igniting the catalytic property of the philosopher s stone and then begins to unpack the properties of true nature when it is free of constraints Finally we are left with the revelation that true nature is endlessly knowable and yet nothing we can know or say about it exhausts its mystery and power The result is a new understanding of what liberation and practice are and a view of what it s like when seeking ceases and life becomes a process of continual discovery We begin to appreciate that the freedom of reality expressed in the complete and fulfilled life all human beings seek and few find is actually the simplicity of the ordinary **Diamond Heart: Elements of the Real in Man** A. Integrative Spirituality Patrick J. Mahaffey, 2018-10-26 In *Integrative Spirituality* Patrick J Mahaffey elucidates spirituality as a developmental process that is enhanced by integrating the teachings and practices of multiple religious traditions Jungian depth psychology and contemplative yoga In the postmodern world of religious pluralism Mahaffey compellingly argues that each of us must fashion a unique path to wholeness which integrates aspects of life and of the self that have become disconnected and disowned Integrative Spirituality uniquely conjoins four components exemplary religious pluralists from three traditions individuation the forms of contemplative Hindu yoga that have been successfully transmitted to the West and a presentation of two models for integrating psychological growth and spiritual awakening The book presents pioneering practitioners in each field who exemplify how we may fashion our own approach to integrating both spiritual awakening and psychological development and delineates an array of spiritual practices that integrate the somatic psychological interpersonal and spiritual aspects of life Ultimately Mahaffey contends that integrative spirituality is a mode of being that fully embraces the divinity inherent in each of us and in the world Integrative Spirituality will be essential reading for academics and students of Jungian and post Jungian studies transpersonal and Jungian psychology and religious studies and contemplative education It will also be of interest to analytical and depth psychologists in practice and in training and to anyone seeking a greater understanding of spirituality psychological growth religious traditions individuation and contemplative yoga
