Russian Economy From Lenin To Putin:

The Russian Economy Steven Rosefielde, 2007-02-12 The epic tale of the Soviet Union's quest to construct a socialist economy was until recently the principal motif of textbooks on the Russian economy. Rosefielde's new text offers a more sober recounting of the Bolshevik saga stripped bare of socialist romanticism, focused equally on the micro and macroeconomics of administrative command planning and Russia's post-Communist market system. Understanding the Soviet economic system and the causes of its failure are central to any student's study of Russia's struggle towards a market economy and its prospects for the future. New textbook offering a more sober recounting of the Bolshevik saga stripped bare of socialist romanticism. Focuses equally on the micro and macroeconomics of administrative command planning and Russia's post-communist market system.

Putin's Russia: Economy, Defence And Foreign Policy Steven Rosefielde, 2020-08-27 This volume seeks to fill the vacuum created by the Joint Economic Committee of Congress's decision to cease publishing comprehensive assessments of Russia's performance and potential. It provides readers with authoritative descriptions of Russia's economy, military prowess and international ambitions. The volume does not settle controversies but does provide readers with an objective basis for assessing Russia's prospects without the distortions caused by fake news and disinformation wars.

The Oxford Handbook of the Russian Economy Michael Alexeev, Shlomo Weber, 2013-07-18 This Handbook is the most comprehensive up-to-date study of the Russian economy available. Transformation and Crisis in Central and Eastern Europe Bruno Dallago, Steven Rosefielde, 2016-05-05 The global financial crisis has provided an important opportunity to revisit debates about post-socialist transition and the relative success of different reform paths. Post-communist Central and Eastern Europe (CEECs) in particular show resilience in the wake of the international crisis with a diverse range of economic transformations. Transformation and Crisis in Central and Eastern Europe offers an in-depth analysis of a diverse range of countries including Poland, Hungary, Russia, Ukraine, Czech Republic, and Slovakia. This volume assesses each country's institutional transformations, geopolitical policies, and local adaptations that have led them down divergent post-communist paths. Chapters take the reader systematically through the evolution of former communist national economic systems before ending with lessons and conclusions for the future. Subsequent chapters demonstrate that economic performance crucially depends on achieving a sustainable balance between

sound institutional design and policies on one hand and localization on the other This new volume from a prestigious group of academics offers a fascinating and timely study which will be of interest to all scholars and policy makers with an interest in European Economics Russian and East European Studies Transition Economies Political Economy and the post 2008 world more generally Unwinding Of The Globalist Dream, The: Eu, Russia And China Steven Rosefielde,Masaaki Kuboniwa,Satoshi Mizobata,Kumiko Haba,2017-11-14 This collection of essays documents and investigates the conflicts in Europe Russia and China that sparked populist revolts against the established globalist order in the European Union It shows that the populist surge was not an anomaly It was a reflection of the internal contradictions of globalism that sparked nationalist resentment inside the EU and backlashes against Western soft power aspirations in Russia and China The idealist rhetoric of the globalist dream was persuasive It lulled many into believing that the movement should not and could not be stopped until the 2008 global financial crisis started the dream to unwind The essays in this volume show that globalism is not dead but will have to reinvent itself to revive The History of Russia Charles E. Beleaguered Superpower: Biden's America Adrift Steven Rosefielde, Daniel Quinn Mills, 2021-07-29 As a new president takes over in Washington three intertwined threats imperil the world One is internal The others are external The internal threat is a potent and increasingly anti patriotic anti competitive anti meritocratic and sky is the limit federal deficit spending political current that is simultaneously diminishing and destabilizing American and global economic vitality The two major external threats are the rising military power of Russia China North Korea and Iran and a global economic malaise sowing the seeds of discontent America's role in containing the spread of new wave authoritarianism and fostering competitiveness and global prosperity is critical but domestic politics is preventing the Biden administration from adequately responding to these challenges Biden's America is adrift America is key to the survival of the free world America is currently a beleaguered superpower This book is possibly the first to address the politics shaping the likely course of America's new president in world affairs It is politics not idealist and realist abstractions which determine international security The world is concerned about what course Biden will

take and the likely consequences It will be the most carefully researched of such books The book deals explicitly and extensively with issues such as spreading authoritarianism the emerging new Cold War global growth retardation civic discord economic sanctions arms control soft power and the deteriorating correlation of forces The China weapons section of the book draws from the latest assessment made by the American Department of Defense The book also includes a section on China s new technology generating innovation model and a chapter on Covid 19 **Power and Policy in Putin's Russia**

have effectively defected to the far right They and other socialists also mistakenly believe that political democracy is organically connected to capitalism and therefore need not be defended whereas on the contrary democracy is only established by mass struggles and is an indispensable resource in the fight against exploitation and oppression Finally these socialists fail to understand that without internationalism it is impossible to defeat global capitalism and its neoliberal policies All the case studies in this book represent attempts to carry out democratic revolutions which are supported by genuine socialist internationalists but opposed by pseudo anti imperialists The book ends by suggesting steps that can be taken to promote democracy and end mass slaughter Tatarstan's Autonomy within Putin's Russia Deniz Dinç,2021-12-13

This book explores how the Volga Tatars the largest ethnic minority within the Russian Federation a Muslim minority achieved a great deal of autonomy for Tatarstan in the years 1988 to 1992 but then lost this autonomy gradually over the course of the Putin era It sets the issue in context tracing the history of the Volga Tatars the descendants of the Golden Horde whose Khans exercised overlordship over Muscovy in medieval times and outlining Tsarist and Soviet nationalities policies and their enduring effects It argues that a key factor driving the decline of greater autonomy besides Putin s policies of harmonisation and centralisation was the behaviour of the minority elites who were despite their earlier engagement in ethnic mobilization very acquiescent to the new Putin regime deciding that co operation would maximise their privileges
