Gavin, 2025-09-02 A compelling and insightful argument for historical study as a way to understand and navigate the complex often confusing world of decision making It seems obvious that we should use history to improve policy If we have a good understanding of the past it should enable better decisions in the present especially in the extraordinarily consequential worlds of statecraft and strategy But how do we gain that knowledge How should history be used Sadly it is rarely done well and historians and decision makers seldom interact But in this remarkable book Francis J Gavin explains the many ways historical knowledge can help us understand and navigate the complex often confusing world around us Good historical work convincingly captures the challenges and complexities the decisionmaker faces At its most useful history is less a narrowly defined field of study than a practice a mental awareness a discernment and a responsiveness to the past and how it unfolded into our present world a discipline in the best sense of the word Gavin demonstrates how a historical sensibility helps us to appreciate the unexpected complicates our assumptions makes the unfamiliar familiar and the familiar unfamiliar and requires us without entirely suspending moral judgment to try to understand others on their own terms This book is a powerful argument for thinking historically as a way for readers to apply wisdom in encountering what is foreign to them Orange Coast Magazine , 1996-11 Orange Coast Magazine is the oldest continuously published lifestyle magazine in the region bringing together Orange County's most affluent coastal
