Preparing Teachers of Mathematics Association of Mathematics Teacher Educators (AMTE), 2020-02-01 Also available in
a black white version AMTE in the Standards for Preparing Teachers of Mathematics SPTM puts forward a national vision of
initial preparation for all Pre K 12 teachers who teach mathematics SPTM contains critical messages for all who teach
mathematics including elementary school teachers teaching all disciplines middle and high school mathematics teachers who
may teach mathematics exclusively special education teachers teachers of emergent multilingual students and other teaching
professionals and administrators who have responsibility for students mathematical learning SPTM has broad implications
for teacher preparation programs in which stakeholders include faculty and administrators in both education and
mathematics at the university level teachers principals and district leaders in the schools with which preparation programs
partner and the communities in which preparation programs and their school partners are situated SPTM is intended as a
national guide that articulates a vision for mathematics teacher preparation and supports the continuous improvement of
teacher preparation programs Such continuous improvement includes changes to preparation program courses and
structures partnerships involving schools and universities and their leaders the ongoing accreditation of such programs
regionally and nationally and the shaping of state and national mathematics teacher preparation policy SPTM is also
designed to inform assessment practices for mathematics teacher preparation programs to influence policies related to
preparation of teachers of mathematics and to promote national dialogue around preparing teachers of mathematics The
vision articulated in SPTM is aspirational in that it describes a set of high expectations for developing a well prepared
beginning teacher of mathematics who can support meaningful student learning The vision is research based and establishes
a set of goals for the continued development and refinement of a mathematics teacher preparation program and a research
agenda for the study of the effects of such a program SPTM contains detailed depictions of what a well prepared beginning
teacher knows and is able to do related to content pedagogy and disposition and what a strong preparation program entails
with respect to learning experiences assessments and partnerships Stakeholders in mathematics teacher preparation will
find messages related to their roles Standards for Preparing Teachers of Mathematics includes standards and indicators for
teacher candidates and for the design of teacher preparation programs SPTM outlines assessment practices related to overall
quality program effectiveness and candidate performance SPTM describes specific focal practices by grade band and
provides guidance to stakeholders regarding processes for productive change *Catalog of Copyright Entries. Third Series*
