number of people actively involved in crime and disorder partnerships *Global Environment of Policing* Darren Palmer, Michael M. Berlin, Dilip K. Das, 2012-06-05 Police organizations across the globe are experiencing major changes. Many nations cope with funding constraints as pressures within their societies, terrorism and transnational crime and social and political transformations necessitate a more democratic form of policing. Drawn from the proceedings at the International Police Executive Symposium in Prague and other IPES projects, *Global Environment of Policing* is composed of case studies from more than fourteen countries and six continents. Divided into four sections, the book presents contributions from high level police executives, practitioners and academics. *Policing Crime Control and the Community* explores community policing in Latin America and the United States and describes the effectiveness of a zero tolerance policy in New York City. It also presents a historical case study of policing in Portugal. *Policing Politics and Democracy* examines challenges confronting developing countries, policing in Brazil, police accountability mechanisms in India and concerns regarding the democratization of policing. *Policing Global Challenges* considers a range of contemporary issues within the policing environment including policing cyberspace, police agencies striving for legitimacy, how law enforcement policies travel worldwide and the problems of organized crime and people smuggling. *Police Leadership Management Education and Organization* reflects on the growing issue of police reform. It discusses the infusion of private sector thinking into state police organizations, conflicts between police unions and management, training and models for police education and police accountability in Bangladesh. The final chapter draws conclusions about the research presented in the book and provides a window on future concerns. With insight from world leaders in academia and in the field, the book offers sage insight into the most critical issues facing contemporary police organizations.

Zero tolerance policing Punch, Maurice, 2007-11-28 What is policing about and who defines it This book examines these key issues by exploring the notion of zero tolerance and its application in different settings Following its introduction in New York and the seemingly dramatic reduction in crime zero tolerance policing was taken up in a number of other countries including the UK and the Netherlands This book examines that process It argues that this policy was in fact nothing more than a return to old style crime control policing While it did foster the swift analysis of crime patterns and more assertive policing of public places it could lean towards repression and demonising of certain groups Examining the negative response of leading police officers and the policy's debatable impact on crime the author concludes that zero tolerance in the UK and Netherlands was more of a populist political and media creation than a coherent policy This book is far more than an authoritative analysis of zero tolerance It is a valuable source for entering the debate about the big picture in policing which many stakeholders now wish to see The approachable style of this book makes it ideal for students academics police practitioners and the lay reader to enter that debate
