Royal Power and Authority in Shakespeare's Late Tragedies Alisa Manninen,2015-10-05 William Shakespeare explores political survival as a question of interaction at court in King Lear Macbeth and Antony and Cleopatra Through a discussion of authority as an element that is distinct from power this book offers a new perspective on the importance of acts of persuasion and the contribution the late tragedies make to Shakespeare s portrayal of monarchy It argues that the most productive uses of the material power to judge or reward are
