Pursuing quality education in Physical and Rehabilitation Medicine Francesca Gimigliano,Maria Gabriella Ceravolo,Jorge Lains,2023-08-15 High quality rehabilitation care represents a constitutive element of health systems worldwide The harmonization of staff education both at the undergraduate and postgraduate level is a key element for ensuring the highest standard of rehabilitation care International bodies like the UEMS Board for Physical and Rehabilitation Medicine PRM or the International Society for PRM have already delivered regulatory documents setting standards in postgraduate PRM education The implementation of such rules is to be validated worldwide with special attention to low and middle income countries This Research Topic aims to stimulate awareness in the scientific community especially for those involved in postgraduate education and policy making decisions It will highlight the need for developing competency based education as a powerful mechanism to align education and training with health system priorities This holds particular value for resource limited countries where the knowledge and skills of rehabilitation doctors need to reflect not only the population s health profile but also the strengths and weaknesses e g workforce gaps and maldistributions of the health system This goal can be achieved through sharing experiences between those who have engaged themselves in the process of program development curriculum design and competency based education in rehabilitation Over the last 25 years the number of papers addressing the issue of residency education in PRM has exponentially increased testifying the interest towards the role of rehabilitation and more specifically of the PRM doctors as leaders of the rehabilitation team *The*

Professional Risk Manager Exam Handbook Jaffar Mohammed Ahmed, 2015-06 Risk management is no longer merely a passive cost center in financial and non financial organizations. Regulators, shareholders, executive management and investors look to risk managers for advice on risk budgeting. Since the financial crisis erupted in 2007, risk managers are expected more than before to make a thorough internal assessment of their organization's risk management frameworks and advise the board of directors and investors on their findings. Through its Professional Risk Manager (PRM) examination and qualification, the Professional Risk Managers International Association (PRMIA) offers an outstanding tool of education for risk managers at all institutions. To be awarded the PRM designation, candidates must successfully pass four exams. The Professional Risk Manager (PRM) Exam Handbook Exam 1 covers the Learning Outcome Statements (LOS) issued by PRMIA for Exam 1. The topics dealt with in this exam are finance theory, financial instruments and financial markets. Due to the limited number of study manuals available for the PRM exams, candidates have previously had to rely on a wide range of resources on finance and financial instruments to learn the information they need. This approach is time consuming and does not leave the candidate feeling confident about their readiness for the exams. The Professional Risk Manager (PRM) Exam Handbook is designed to address this problem and help PRM candidates prepare for the PRM exams. The intention is to remove the need to refer to many different reference works and to make the obscure concepts comprehensible. The Handbook has been designed to cover everything you will need to know for PRM Exam 1. Information is presented in a clear, organized way and demands very little previous knowledge of risk and finance. PRM candidates coming from a non financial background should face no difficulty using this book as a reference to the intricacies of financial markets and risk management.
