

DOCUMENT CONTROL SOP FOR MACHINES

SOP. NO	WRITTEN BY	DATE:
10	Carrie Anne Richardson	August 21, 2029

PURPOSE:	The purpose of this SOP is to establish a consistent and controlled method for documenting changes made to machines.
SCOPE:	This SOP applies to all machines in the facility.
RESPONSIBILITY:	The person responsible for this SOP is the Quality Manager.
PROCEDURE:	1. When a change is made to a machine, the machine's documentation (schematic, drawing, PLC program, etc.) must be updated to reflect any revisions and changes. 2. The person responsible for making the change must update the documentation and submit the summary to the Quality Manager for review and approval. 3. The Quality Manager will review the documentation and, if necessary, make changes. Once the documentation has been approved, it will be filed in the machine's file. 4. Any changes made to the machine without prior approval from the Quality Manager may result in disciplinary action.

Global Strategic Trade Management Rajiv Nayan, 2019-02-26 This book examines whether India is successfully integrating and adapting to the global strategic management system It offers essential insights into the evolution of export controls for goods which may have implications for the development of Weapons of Mass Destruction an aspect that is especially relevant given India's robust biotechnological chemical and nuclear industrial base In security studies the

phrase strategic trade management is now slowly replacing the phrase export control. However, for the policymaking community, export control remains popular at least for the sake of reference. The book also describes the mechanisms India is adopting in this regard. It demonstrates the shift in the Indian approach to strategic trade management from an outspoken critic to a supporter. Politically, the country was initially skeptical of the idea of export controls because it was a target of such systems. The book also explains the tools, forces, and incentives that moved India to adapt its policy on export controls or strategic trade management.

Modern Data Protection W. Curtis Preston, 2021-04-29 Give your organization the data protection it deserves without the uncertainty and cost overruns experienced by your predecessors or other companies. System and network administrators have their work cut out for them to protect physical and virtual machines in the data center and the cloud, mobile devices including laptops and tablets, SaaS services like Microsoft 365, Google Workspace, and Salesforce, and persistent data created by Kubernetes and container workloads. To help you navigate the breadth and depth of this challenge, this book presents several solutions so you can determine which is right for your company. You'll learn the unique requirements that each workload presents, then explore various categories of commercial backup hardware, software, and services available to protect these data sources, including the advantages and disadvantages of each approach. Learn the workload types that your organization should be backing up. Explore the hardware, software, and services you can use to back up your systems. Understand what's wrong with your current data protection system. Pair your backed-up workloads to the appropriate backup system. Learn the adjustments that will make your backups better without wasting money.

Law and the Arms Trade Laurence Lustgarten, 2020-09-03 This ground-breaking book offers an extensive legal analysis grounded in public EU and international law of arms trade regulation, integrated with insights drawn from international relations. The sale of weapons and related technologies is globally one of the most politically controversial and ethically contentious forms of commerce. Intimately connected with sustaining repressive governments and violations of international human rights and humanitarian law, arms exports are also a central element in the economic and strategic policies of the governments of all large industrial states. They have also been the source of abundant corruption and of serious challenges to the norms and effectiveness of constitutional accountability in democratic states. On paper, the arms trade is heavily regulated: national legislation and international treaties are in place which purport to prohibit certain transactions and limit others. Yet despite its importance, legal and international relations scholarship on the subject has been surprisingly limited. This book fills this gap in the literature by examining and comparing the export control regimes of eight leading nations: USA, Russia, the UK, France, Germany, Sweden, China, and India, with chapters contributed by leading experts in the field of law and international relations.
