Language and Characterisation in Television Series Monika Bednarek, 2023-03-15 This book explores how language is used to create characters in fictional television series To do so it draws on multiple case studies from the United States and Australia Brought together in this book for the first time these case studies constitute more than the sum of their parts They highlight different aspects of televisual characterisation and showcase the use of different data methods and approaches in its analysis Uniquely the book takes a mixed method approach and will thus not only appeal to corpus linguists but also researchers in sociolinguistics stylistics and pragmatics All corpus linguistic techniques are clearly introduced and explained and the book is thus accessible to both experienced researchers as well as novice researchers and students It will be essential reading in linguistics literature stylistics and media television

studies **Criminal Victimization in the U.S.** Adolfo L. Paez,1982 Natural Capital Peter Kareiva,2011-04-07 In 2005 The Millennium Ecosystem Assessment MA provided the first global assessment of the world s ecosystems and ecosystem services It concluded that recent trends in ecosystem change threatened human wellbeing due to declining ecosystem services This bleak prophecy has galvanized conservation organizations ecologists and economists to work toward rigorous valuations of ecosystem services at a spatial scale and with a resolution that can inform public policy The editors have assembled the world s leading scientists in the fields of conservation policy analysis and resource economics to provide the most intensive and best technical analyses of ecosystem services to date A key idea that guides the science is that the modelling and valuation approaches being developed should use data that are readily available around the world In addition the book documents a toolbox of ecosystem service mapping modeling and valuation models that both The Nature Conservancy and the World Wide Fund for Nature WWF are beginning to apply around the world as they transform conservation from a biodiversity only to a people and ecosystem services agenda The book addresses land freshwater and marine systems at a variety of spatial scales and includes discussion of how to treat both climate change and cultural values when examining tradeoffs among ecosystem services Seasonal Changes in Florida Oranges Paul Lewis Harding,D.
