Tangents and Secants of Algebraic Varieties F. L. Zak, 1993 The book is devoted to geometry of algebraic varieties in projective spaces Among the objects considered in some detail are tangent and secant varieties Gauss maps dual varieties hyperplane sections projections and varieties of small codimension Emphasis is made on the study of interplay between irregular behavior of higher secant varieties and irregular tangencies to the original variety Classification of varieties with unusual tangential properties yields interesting examples many of which arise as orbits of representations of algebraic groups ABSTRACT Fair Isn't Always Equal Rick Wormeli, 2023-10-10 Differentiated instruction is a nice idea but what happens when it comes to assessing and grading students How can you capture student progress growth and soft skill development and still provide an equitable grading environment An internationally recognized expert on grading practices author Rick Wormeli revisits these questions in this thoroughly updated second edition of *Fair Isn't Always Equal* Assessment and Grading in the Differentiated Classroom Wormeli reflects on current grading and assessment practices and how they can exist with high stakes accountable classrooms Important and sometimes controversial issues are tackled constructively in this book incorporating modern pedagogy and addressing the challenges of teaching diverse groups of students across all learning levels Middle and high school educators will easily recognize gray areas of grading and how important it is to have a shared school vision In this second edition new sections address sports eligibility honor roll descriptive feedback techniques and gifted talented students Previous chapters on test questions redos retakes grading scales and grading effort and behavior have been revised extensively This important book clearly explains the principles behind best grading practices so that you are ready for all grading questions or scenarios that you may encounter in your classrooms and schools

Geometry Mary Lee Vivian, 1994 **Teaching Mathematics in Grades 6 - 12** Randall E. Groth, 2012-08-10 A journey into the vibrant and intriguing world of mathematics education Teaching Mathematics in Grades 6 12 explores how research in mathematics education can inform teaching practice in grades 6 12 The author shows secondary mathematics teachers the value of being a researcher in the classroom by constantly experimenting with methods for developing students mathematical thinking and then connecting this research to practices that enhance students understanding of the material The chapters in Part I introduce secondary teachers to the field of mathematics education with cross cutting issues that apply to teaching and learning in all mathematics content areas The chapters in Part II are devoted to specific mathematics content strands and describe how students think about mathematical concepts The goal of the text is to have secondary math teachers gain a deeper understanding of the types of mathematical knowledge their students bring to grade 6 12 classrooms and how students thinking may develop in response to different teaching strategies *Fair Girls and Gray Horses* Will H.
