Friedrich Nietzsche (English Edition) Georg Brandes, 2015-02-25 Example in this ebook AN ESSAY ON ARISTOCRATIC RADICALISM 1889 Friedrich Nietzsche appears to me the most interesting writer in German literature at the present time Though little known even in his own country he is a thinker of a high order who fully deserves to be studied discussed contested and mastered Among many good qualities he has that of imparting his mood to others and setting their thoughts in motion During a period of eighteen years Nietzsche has written a long series of books and pamphlets Most of these volumes consist of aphorisms and of these the greater part as well as the more original are concerned with moral prejudices In this province will be found his lasting importance But besides this he has dealt with the most varied problems he has written on culture and history on art and women on companionship and solitude on the State and society on life s struggle and death He was born on October 15 1844 studied philology became in 1869 professor of philology at Basle made the acquaintance of Richard Wagner and became warmly attached to him and associated also with the distinguished historian of the Renaissance Jakob Burkhardt Nietzsche s admiration and affection for Burkhardt were lasting His feeling for Wagner on the other hand underwent a complete revulsion in the course of years From having been Wagner s prophet he developed into his most passionate opponent Nietzsche was always heart and soul a musician he even tried his hand as a composer in his Hymn to Life for chorus and orchestra 1888 and his intercourse with Wagner left deep traces in his earliest writings But the opera of Parsifal with its tendency to Catholicism and its advancement of the ascetic ideals which had previously been entirely foreign to Wagner caused Nietzsche to see in the great composer a danger an enemy a morbid phenomenon since this last work showed him all the earlier operas in a new light During his residence in Switzerland Nietzsche came to know a large circle of interesting people He suffered however from extremely severe headaches so frequent that they incapacitated him for about two hundred days in the year and brought him to the verge of the grave In 1879 he resigned his professorship From 1882 to 1888 his state of health improved though extremely slowly His eyes were still so weak that he was threatened with blindness He was compelled to be extremely careful in his mode of life and to choose his place of residence in obedience to climatic and meteorological conditions He usually spent the winter at

Nice and the summer at Sils Maria in the Upper Engadine The years 1887 and 1888 were astonishingly rich in production they saw the publication of the most remarkable works of widely different nature and the preparation of a whole series of new books Then at the close of the latter year perhaps as the result of overstrain a violent attack of mental disorder occurred from which Nietzsche never recovered To be continue in this ebook **Essays on Ethics and Culture** Sabina

Lovibond,2022-10-17 These essays discuss various ontological and epistemological questions in moral philosophy drawing on ideas from Platonic Aristotelian ethics the later Wittgenstein and Iris Murdoch though without seeking to weave these into any unified system The general approach is realist or objectivist paying some attention to the role of imaginative literature especially the novel in ethical formation A common theme is the lived experience of the socially situated subject including our capacity for engagement with the values present in an inherited tradition or form of life Such engagement once raised to consciousness may contain elements both of affirmation and of cultural critique In the book as a whole the critical theme predominates with a certain emphasis on discourses of social disruption But it is always assumed that the right place to stand as an observer of the domain of value is within that domain and that moral critique will be immanent with respect to the culture addressed that is it will make do with just the conceptual and linguistic resources available to ordinary participants in moral political or aesthetic conversation *Kriya Yoga - English Edition* Jayadev Jaerschky,2016-04-18 Kriya Yoga is an

ancient and powerful technique of liberation transformation and illumination It has been taught over the centuries by the greatest yogis and was introduced in the West in our time by the great master Paramhansa Yogananda who described it in his Autobiography of a Yogi as the airplane route and the easiest most effective and most scientific way to approach the Infinite This book presents the many facets of Kriya Yoga in a complete and accessible way for the first time from its history to its philosophy to the subtleties of the practice to how to prepare for initiation It is an invaluable text for all those who wish to learn or to deepen their understanding of this ancient science kept secret for so long And not only that it is a treasure trove of practical tools and techniques for all who wish to delve into the wonderful adventure of the inner journey This book offers you a chance to board the airplane of Kriya Yoga and fly straight to the eternal beauty of your own Self Never before has the ancient liberating science of Kriya Yoga long kept secret throughout the course of history been presented so completely deeply and yet accessibly **Ethics in the Wake of Wittgenstein** Benjamin De Mesel,Oskari

Kuusela,2019-04-25 This book brings together essays from leading scholars who rather than taking a strictly exegetical approach attempt to show how discussions in moral philosophy can benefit from Wittgenstein s later philosophical work The essays in this volume make the argument that Wittgenstein s relevance for moral philosophy depends not only on his views about ethics but also on the methods he introduces on his views on the nature of philosophy and philosophical problems and on the insights into language developed in his philosophy They also focus on the Wittgensteinian tradition in moral philosophy and its relation to more mainstream analytic moral philosophy addressing how several prominent philosophers

use these ideas and methods in their work Ethics in the Wake of Wittgenstein seeks to answer the following question Can we apply Wittgenstein s ways of dealing with problems in logic philosophy of language epistemology philosophy of mind and philosophy of mathematics to moral philosophy as well It will be of interest to Wittgenstein scholars and those working on current debates in moral philosophy metaethics and normative ethics New Private Law Theory Stefan Grundmann,Hans-W. Micklitz,Moritz Renner,2021-03-18 New Private Law Theory opens a new pathway to private law theory through a pluralistic approach Such a theory needs a broad and stable foundation which the authors have built here through a canon of nearly seventy texts of reference This book brings these different texts from different disciplines into conversation with each other grouping them around central questions of private law and at the same time integrating them with the legal doctrinal analysis of example cases This book will be accessible to both experienced and early career scholars working on private law Visions of Nature Rian J. Lenders,2006 Visions of nature are the ideas that people hold of what nature is and how we should relate to it These visions are important for the design of democratically grounded landscape and nature policies These contributions were presented at an expert meeting at Radboud University June 2001 The Poetics of Old English Tiffany Beechy,2016-02-24 Combining literary analysis and theoretical linguistics Tiffany Beechy s timely and engaging study provides a critical reassessment of Old English texts that challenges the distinction between Anglo Saxon prose and verse ultimately recognizing an inherent poetic nature present in all Old English texts While the poetic nature of Beowulf due to the regular meter and heroic story is recognized this study demonstrates that poetry is a more widespread phenomenon than previously thought poetic patterning can be found across the Old English corpus both in verse and in so called prose Informed by Jakobsonian linguistics and oral theory Beechy s analysis focuses on the text itself to identify unique poetic strategies This demonstration includes a comparison between King Alfred s Old English version of Boethius Consolatio Philosophiae and the Latin original the poetic quality of prose homilies poetic epistemology in law codes riddles and charms and unconventional poetics even in traditional verse texts such as the short lyric Deor and the long poem Christ I The Poetics of Old English brings interrelated developments in linguistics and literary theory to the study of Anglo Saxon language and culture showing that Old English texts when considered at the level of language are surprisingly sophisticated Objective English 18 Days Wonder K.J.S. Fóti, 2020-03-01 A study of the significance of the visual arts in Merleau Ponty's aesthetics in relation to the work of five artists not known or discussed by him Merleau Ponty's phenomenological ontology engages deeply with visual art and this aspect of his work remains significant not only to philosophers but also to artists art theorists and critics Until recently scholarly attention has been focused on the artists he himself was inspired by and wrote about chiefly Cézanne Klee Matisse and Rodin Merleau Ponty at the Gallery expands and shifts the focus to address a range of artists Giorgio Morandi Kiki Smith Cy Twombly Joan Mitchell and Ellsworth Kelly whose work came to prominence in the second half of the twentieth century and thus primarily after the philosopher's death Véronique M. Fóti does not confine her analyses to Merleau Ponty's texts which now importantly include his late lecture courses but also engages directly with the art Of particular concern to her is the art's ethical bearing especially as related to animal and vegetal life The book's concluding chapter addresses the still widespread rejection of beauty as an aesthetic value The book operates along several lines at once offering insightful and new critical readings of artists through the lens of Merleau Ponty's scholarship Clearly written and engaging it will be of interest to a wide range of scholars and students Rajiv Kaushik Brock University **Adorno on Nature** Deborah Cook, 2014-09-11 Decades before the environmental movement emerged in the 1960s Adorno condemned our destructive and self-destructive relationship to the natural world warning of the catastrophe that may result if we continue to treat nature as an object that exists exclusively for our own benefit Adorno on Nature presents the first detailed examination of the pivotal role of the idea of natural history in Adorno's work A comparison of Adorno's concerns with those of key ecological theorists social ecologist Murray Bookchin ecofeminist Carolyn Merchant and deep ecologist Arne Naess reveals how Adorno speaks directly to many of today's most pressing environmental issues Ending with a discussion of the philosophical conundrum of unity in diversity Adorno on Nature also explores how social solidarity can be promoted as a necessary means of confronting environmental problems
