American Bar Association Journal American Bar Association, 1960 **Through A Glass Darkly** Margaret Thornton, 2015-11-08 This collection of essays arose from a workshop held in Canberra in 2013 under the auspices of the Academy of Social Sciences in Australia to consider the impact of the encroachment of the market on public universities While the UK tripled fees in 2013 and determined that the teaching of the social sciences and the humanities would no longer be publicly funded it was feared that Australia would go further and deregulate fees altogether In the best tradition of the social sciences the contributors have assumed the role of critic and conscience of society to present penetrating analyses of the ramifications of the corporatisation of the university as neoliberalism continues to occupy the ascendant position in the political firmament The dramatis personae in these analyses are students academics managers and political mandarins with the gendered character of corporatisation an important sub theme **Green Illusions** Ozzie Zehner, 2012 We don't have an energy crisis We have a consumption crisis And this book which takes aim at cherished assumptions regarding energy offers refreshingly straight talk about what's wrong with the way we think and talk about the problem Though we generally believe we can solve environmental problems with more energy more solar cells wind turbines and biofuels alternative technologies come with their own side effects and limitations How for instance do solar cells cause harm Why can't engineers solve wind power's biggest obstacle Why won't contraception solve the problem of overpopulation lying at the heart of our concerns about energy and what will This practical environmentally informed and lucid book persuasively argues for a change of perspective If consumption is the problem as Ozzie Zehner suggests then we need to shift our focus from suspect alternative energies to improving social and political fundamentals walkable communities improved consumption enlightened governance and most notably women's rights The dozens of first steps he offers are surprisingly straightforward For instance he introduces a simple sticker that promises a greater impact than all of the nation's solar cells He uncovers why carbon taxes won't solve our energy challenges and presents two taxes that could Finally he explores how future environmentalists will focus on similarly fresh alternatives that are affordable clean and can actually improve our well being Watch a book trailer **Making Value** Timothy D. Taylor, 2024-03-18 Timothy D Taylor theorizes music's economic and noneconomic forms of value to examine how people's conceptions of value inform and shape their production and consumption of music
