Schwartz,2016-07-26 A panoramic social history of hurricanes in the Caribbean The diverse cultures of the Caribbean have been shaped as much by hurricanes as they have by diplomacy commerce or the legacy of colonial rule In this panoramic work of social history Stuart Schwartz examines how Caribbean societies have responded to the dangers of hurricanes and how these destructive storms have influenced the region s history from the rise of plantations to slavery and its abolition to migrations racial conflict and war Taking readers from the voyages of Columbus to the devastation of Hurricane Katrina Schwartz looks at the ethical political and economic challenges that hurricanes posed to the Caribbean s indigenous populations and the different European peoples who

ventured to the New World to exploit its riches He describes how the United States provided the model for responding to environmental threats when it emerged as a major power and began to exert its influence over the Caribbean in the nineteenth century and how the region's governments came to assume greater responsibilities for prevention and relief efforts that by the end of the twentieth century were being questioned by free market neoliberals Schwartz sheds light on catastrophes like Katrina by framing them within a long and contentious history of human interaction with the natural world Spanning more than five centuries and drawing on extensive archival research in Europe and the Americas *Sea of Storms* emphasizes the continuing role of race social inequality and economic ideology in the shaping of our responses to natural disaster [Types of Storms of the United States and Their Average Movements](#) Edward Hall Bowie, Richard Hanson Weightman, 1914 **Seasons of My Military Student** Amanda Trimillos, Stacy Allsbrook-Huisman, 2018-06-01 an absolute must have for the parents and teachers of mil kids and a comprehensive tool in helping our military students thrive throughout transition Military Spouse magazine outstandingly warm perceptive and practical suggestions for making transitions as rewarding as possible for our military kids Military Spouse Book Review Military connected students move frequently changing schools as many as nine times from preschool to high school graduation With each move they adjust to a different curriculum meet new teachers and coaches adapt to a new learning environment and develop new friendships all amid other military life challenges such as a parent's deployment *Seasons of My Military Student* helps parents and teachers Understand the Seasons of Transition TM and the storms of military life that impact a student's education Employ key provisions of the Interstate Compact on Educational Opportunity for Military Children Create an effective portable Seasons Education Binder Work together as a team to support a student from grade to grade and school to school Multiple Award Winning Book IBPA Benjamin Franklin Awards Gold Best Education Book Military Writers Society of America Gold Best Education Book Midwest Book Awards Finalist **Seasons of a Dean's Life** Walter H. Gmelch, Dee Hopkins, Sandra Damico, 2023-07-03 What are the demands of being a dean What leadership development do deans need as they progress through their academic careers How are their responsibilities changing What are institutions looking for in applicants This book identifies the range of leadership skills required and illuminates the process of building leadership capacity by drawing on interviews with over 50 sitting deans both women and men on the insights derived from conducting professional development seminars for several hundred deans and on the authors 48 years of collective experience in eight different deanships The abundant examples and accounts of individual deans leadership successes and failures and the competences they developed along their career paths give the reader a taste of what the deanship is really like and how the role changes over time In the process of gathering their data and tracing their own and others administrative journeys the authors found similarities in how deans progress as leaders in the common rites of passage they encounter and in the evolution of their role They describe the stages or seasons of the deanship ranging from getting started the first three years of deanship

springtime to hitting your stride years four to seven of deanship summer and keeping the fire alive eight years and beyond of deanship fall through to planning to step down and leaving the role winter What also emerged from the authors research is that most deans come to their positions without leadership training without prior executive experience without a clear understanding of the ambiguity of their new role or its responsibilities This book fills a void by offering guidance on applying for a deanship preparing for the role and purposefully building the needed skills and knowledge For anyone considering taking on a deanship this book offers a unique window into the role For sitting deans it offers a compass for shaping the trajectory of their careers
