Lessons Learned from FIPSE Projects IV Dora Marcus, 2000 *Lessons Learned from FIPSE Projects*, 2000 **The Knowledge Gap** Natalie Wexler, 2020-08-04 Essential reading for teachers education administrators and policymakers alike STARRED Library Journal The untold story of the root cause of America s education crisis It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country s frustrating lack of progress when it comes to providing every child with a quality education The problem wasn t one of the usual scapegoats lazy teachers shoddy facilities lack of accountability It was something no one was talking about the elementary school curriculum s intense focus on decontextualized reading comprehension skills at the expense of actual knowledge In the tradition of Dale Russakoff s *The Prize* and Dana Goldstein s *The Teacher Wars* Wexler brings together history research and compelling characters to pull back the curtain on this fundamental flaw in our education system one that fellow reformers journalists and policymakers have long overlooked and of which the general public including many parents remains unaware But *The Knowledge Gap* isn t just a story of what schools have gotten so wrong it also follows innovative educators who are in the process of shedding their deeply ingrained habits and describes the rewards that have come along students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed If we truly want to fix our education system and unlock the potential of our neediest children we have no choice but to pay attention

Alternative Schools Brenda Edgerton Conley, 2002-11-22 An examination of the growth and development of alternative schools in American society and their role in the public school environment In *Alternative Schools A Reference Handbook* educator Brenda Edgerton Conley surveys the emerging alternatives to our conventional educational system a system that is not only costly but ineffective for many children In a resource aimed at a broad audience school administrators politicians and most important parents Conley offers both a historical and a present day perspective on alternative educational programs What sets the alternative education movement apart she argues is its acknowledgment that we all learn differently That knowledge has given rise to an explosion of exciting alternatives from open schools to home schooling from charter schools to church schools These alternative schools are smaller and less bureaucratic more responsive to the community and more receptive to change

The Mathematics Lesson-Planning Handbook, Grades K-2 Beth McCord Kobett, Ruth Harbin Miles, Lois A. Williams, 2018-02-09 This book brings together the best of Visible Learning and the teaching of mathematics The chapters on learning intentions success criteria misconceptions formative evaluation and knowing thy impact are stunning Rich in exemplars grounded in research about practice and with the right balance about the surface and deep learning in math it s a great go to book for all who teach mathematics John Hattie Laureate Professor Deputy Dean of MGSE Director of the Melbourne Education Research Institute Melbourne Graduate School of Education Your blueprint to planning K 2 math lessons for maximum impact and understanding Not sure of tomorrow morning s lesson plan Or maybe

you feel it isn't tailored enough for your students' needs. What do you do? For that and more help is here. The Mathematics Lesson Planning Handbook Grades K-2: Your Blueprint for Building Cohesive Lessons guides teachers step by step through the decision making process of planning K-2 math lessons that are purposeful, rigorous and coherent. Instructional experts Beth McCord, Kobett Ruth Harbin Miles and Lois A. Williams streamline and deepen the lesson planning process, showing teachers how to assess students' complex needs, clarify learning intentions and select tasks that will best lead to student understanding of mathematical concepts and skills. Along the way, teachers create an individualized blueprint for planning K-2 math lessons for maximum student learning. The lesson planning process guides teachers to: Identify the mathematical content, language and social learning intentions for a lesson or unit and connect goals to success criteria; Determine the purpose of a math lesson you're planning by distinguishing between conceptual understanding, procedural fluency and transfer; Select worthwhile tasks and materials that make the best use of representations, manipulatives and other instructional tools and resources; Choose the format of your lesson using reasoning and number routines, games, whole class discussion and pairs or small group work; Anticipate student misconceptions and evaluate understanding using a variety of formative assessment techniques; Decide how you'll launch your lesson, facilitate questioning, encourage productive struggle and close your lesson. Included is a lesson planning template and examples from kindergarten, first and second grade classrooms. Chapter by chapter, the decision making strategies empower teachers to plan math lessons strategically to teach with intention and confidence and to build an exceptional foundation in math for all students. **IJER Vol 6-N4**

International Journal of Educational Reform, 1997-10-01. The mission of the International Journal of Educational Reform (IJER) is to keep readers up to date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer reviewed scholarly publication that combines authors' voices without regard for the political affiliations, perspectives or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes but is not limited to inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law and research. IJER should thus be of interest to professional educators with decision making roles and policymakers at all levels, turn since it provides a broad based conversation between and among policymakers, practitioners and academicians about reform goals, objectives and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world. **The Subaltern Speak** Michael W. Apple, Kristen L. Buras, 2013-01-11. The question of whose perspective, experience and history is privileged in educational institutions has shaped curriculum debates

for decades In this insightful collection Michael W Apple and Kristen L Buras interrogate the notion that some knowledge is worth more than others The Subaltern Speak combines an analysis of the ways in which various forms of power now operate with a specific focus on spaces in which subaltern groups act to reassert their own perceived identities cultures and histories

Camarata,2025-05-20

A revised and expanded edition of the bestselling guide to late talking children for parents clinicians and educators from a leading authority on development and disabilities Every year in America more than half a million parents of late talking children face agonizing questions What should I do if my two or even three year old has not yet begun to talk Should I worry that my child is autistic or intellectually disabled Are expensive therapies or medications needed Will my child ever speak normally In this revised and expanded edition of the essential resource on the subject Late Talking Children Stephen Camarata the parent of a late talking child and a late talker himself provides clear sensible and compassionate answers for parents clinicians and educators drawing on his more than three decades of experience diagnosing and treating the late talking syndrome as well as the best science available today Thinking about Schools Eleanor Blair Hilty,2018-04-19 This book considers how American public education came to be the way it is today It helps students to have a better sense of how the past informs the present and how questions regarding who is served best by the schools tell us about the goals and aspirations of present day schools in America **Kiplinger's Personal Finance** ,1999-06 The most trustworthy source of information available today on savings and investments taxes money management home ownership and many other personal finance topics **Congressional Record** United States. Congress,1997 **Resources in Education** ,2001-04 **Free to Learn** Lance T. Izumi,Xiaochin Claire Yan,2005 Charters are by nature different not just from traditional public schools but from one another With their freedom and flexibility some charter schools have opened doors and opportunities for many poor minority children who were previously trapped at failing campuses run by school district bureaucracies These successful charter schools have perfected alternative models of organization management and discipline that shatter the status quo orthodoxy In Free to Learn successful charter principals and teachers who often do things contrary to the public education establishment offer hope and practical advice for the charter movement After Hurricane Katrina Free to Learn served as an inspiration and handbook for charter school administrators in New Orleans *Developing Curriculum for Deep Thinking*

Tim Surma, Claudio Vanhees, Michiel Wils, Jasper Nijlunsing, Nuno Crato, John Hattie, Daniel Muijs, Elizabeth Rata, Dylan Wiliam, Paul A. Kirschner, 2025-01-02 This open access book discusses why the seemingly straightforward strategy of teaching children how to think deeply does not work and offers an alternative way forward for the curriculum to achieve these objectives Over the years the role of knowledge in the curriculum has like a pendulum shifted between two extremes from highly visible to virtually invisible knowledge elements Insights from cognitive and educational psychology sociology and curriculum studies are used to underpin the current knowledge revival that is widely being observed in education A knowledge rich curriculum is proposed by the authors as not only the soundest way forward to both effectively acquire knowledge and complex cognitive skills in school but also as a crucial lever to achieve equitable opportunities for all students In understanding how a knowledge rich curriculum can enhance learning three overarching principles are discussed 1 content richness 2 coherence and 3 clarity These principles are illustrated through practical examples from schools and educators who have effectively integrated knowledge rich curricula

Curriculum changes in the Visegrad Four: three decades after the fall of communism Tomáš Janík, Ľuboslav Porubský, Magdolna Chrappán, Kinga Kuszak, 2020 School systems in the Visegrad Four countries have gone through significant change since the political upheavals of 1989 The book describes developments in curriculum and curriculum policy over the last three decades and considers the possible impact and perspectives of current changes It explores the nature of curriculum reform addresses the challenge of its implementation and highlights the reform as a means by which school quality can be improved and as a provider of aims and contents of school education Hopefully the book will contribute to the discussion of options for further curriculum development and curriculum policy in the Visegrad Four and other countries with a similar educational background

History of Education Policymaking in India, 1947-2016 R. V. Vaidyanatha Ayyar, 2017-09-12 This book comprehensively chronicles the history of the education policymaking in India from 1947 to 2016 with a focus on the developments after 1964 when the Kothari Commission was constituted The book is informed by the rare insights acquired by the author while making policy at the state national and international levels of governance Another distinguishing feature of this book lies in the attention it pays to the process and politics of policymaking and the larger setting or to use jargon the political and policy environment in which policies were made at different points of time The author brings out a crucial analysis of the Indian educational system against the backdrop of national and global political economic and educational developments Two other distinguishing features of the book are the systematic treatment of the regulation of education and the role of judiciary in the making and implementation of education policies

Critical Literacy Eugene F. Provenzo, Michael W. Apple, 2015-12-03 In Critical Literacy Eugene F Provenzo Jr challenges E D Hirsch s assumptions about culture and education Calling for a broader and more democratic vision than Hirsch Provenzo critiques Hirsch s legacy up through the current conservative educational agenda for education which he argues denies not only the United States diversity but its

democratic traditions of democratic participation His book shows why critical faculties and skills of students are essential not only to the success of individual students but to their participation in a healthy democracy Provenzo offers a list of 5 000 things every educated American ought to know none of them the same items as those included on Hirsch s list in Cultural Literacy Critical Literacy is essential reading for those concerned with our schools and the future of our children
