

(b) Give reasons for the following :

- (i) Photosynthesis is considered as a process supporting all life on earth.
- (ii) A matured mammalian erythrocyte lacks nucleus and mitochondria.
- (iii) Potato cubes when placed in water become firm and increase in size.
- (iv) Urine is slightly thicker in summer than in winter.
- (v) People living in hilly regions usually suffer from simple goitre.

[5]

Answer :

(a) (i) Cortex

- (ii) 1—Afferent arteriole
3—Bowman's capsule.

2—Glomerulus

4—Efferent arteriole

(iii) Ultrafiltration

Selective reabsorption

Tubular secretion

(iv) Ultrafiltration.

Blood rich in nitrogenous waste and excess water enters Bowmans Capsule through a wider afferent arteriole then splits into fine capillaries called glomerulus due to which a hydrostatic pressure is created. This pressure leads to filtration of water with nitrogenous wastes.

(b) (i) Photosynthesis process leads to release of oxygen which is essential for all life on earth. It also produces food for all heterotrophs.

(ii) Lack of nucleus helps in having more surface area for absorption and transport of oxygen.

Lack of mitochondria helps in the way that RBC would not consume any oxygen that it is transporting.

(iii) Water is a hypotonic medium, so endosmosis occurs due to which water enters into potato cells making them firm and larger in size i.e., making them turgid.

(iv) In summer, body loses large amount of water by perspiration or direct evaporation. So blood is order to maintain its osmotic concentration reabsorbs large amount of water from the tubules of Nephron due to which there is less water left to be released as urine. So urine becomes thicker whereas in winter, there is less reabsorption. So thin urine is passed.

(v) In hilly areas there is scarcity of iodine in the soil and in their diet. Deficiency of iodine leads to simple goitre.

Pakistan's Blasphemy Laws Shemeem Burney Abbas, 2013-07-01 Under the guise of Islamic law the prophet Muhammad s Islam and the Qur an states such as Pakistan Afghanistan Egypt Saudi Arabia and Bangladesh are using blasphemy laws to suppress freedom of speech Yet the Prophet never tried or executed anyone for blasphemy nor does the

Qur'an authorize the practice Asserting that blasphemy laws are neither Islamic nor Qur'anic Shemeem Burney Abbas traces the evolution of these laws from the Islamic empires that followed the death of the Prophet Muhammad to the present day Taliban Her pathfinding study on the shari'a and gender demonstrates that Pakistan's blasphemy laws are the inventions of a military state that manipulates discourse in the name of Islam to exclude minorities women free thinkers and even children from the rights of citizenship Abbas herself was persecuted under Pakistan's blasphemy laws so she writes from both personal experience and years of scholarly study Her analysis exposes the questionable motives behind Pakistan's blasphemy laws which were resurrected during General Zia ul Haq's regime of 1977-1988 motives that encompassed gaining geopolitical control of the region including Afghanistan in order to weaken the Soviet Union Abbas argues that these laws created a state sponsored infidel ideology that now affects global security as militant groups such as the Taliban justify violence against all infidels who do not subscribe to their interpretation of Islam She builds a strong case for the suspension of Pakistan's blasphemy laws and for a return to the Prophet's peaceful vision of social justice
