Magruder's American Government Guided Reading and Review Workbook Student Edition 2003c William A. McClenaghan, 2002-05-15 High School Hailed as a stellar educational resource for nearly a century Magruder's American Government is updated annually to meet the changing needs of today's high school students and teachers The program's engaging narrative is enhanced with numerous primary sources political cartoons charts graphs and photos making the structure and principals of government accessible and motivating to students of all abilities *Domestic Counter-Terrorism in a Global World* Daniel Alati, 2017-07-14 Although both Canada and the United Kingdom had experienced terrorism prior to the attacks of 9/11 and already had in place extensive provisions to deal with terrorism the events of that day led to the enactment of new and expansive counter terrorism legislation being enacted in both jurisdictions This book explores these changes to counter terrorism laws and policies in the UK and Canada in order to demonstrate that despite the force of international legal instruments including the heavily scrutinized UN Security Council Resolution 1373 the evolution of counter terrorism policies in different jurisdictions is best analyzed and understood as a product of local institutional structures and cultures The book compares legal and political structures and cultures within Canada and the United Kingdom It analyses variations in the evolution post 9/11 counter terrorism measures in the two jurisdictions and explores the domestic reasons for them While focus is primarily geared towards security certificates and bail with recognizance investigative hearings in Canada and detention without trial control orders and TPIMs in the UK the use of secret evidence in the wider national security context terrorist listing civil litigation criminal prosecutions etc is also discussed The book reveals how domestic structures and cultures including the legal system the relative stability of government local human rights culture and geopolitical relationships all influence how counter terrorism measures evolve In this sense the book utilizes a methodology that is both comparative and interdisciplinary by engaging in legal political historical and cultural analyses This book will be particularly useful for target audiences in the fields of comparative law and criminal justice counter terrorism law human rights law and international relations and politics The Educator-journal ,1911 **EU Law in the UK** Sylvia de Mars, 2020 How does EU law work in the real world What is the legal reality behind the Brexit debates How will law in the UK change now the country has left the EU EU Law in the UK Provides a Fresh Engaging and Relatable Account of EU Law It Covers All the Core Areas of EU Law Taught on Undergraduate Courses with a Post Brexit Perspective Interwoven Throughout Book jacket **Decennial Edition of the American Digest** ,1919 **2001 Magruder's American Government** William A. Alice Macharia, 2021-02-22 This book draws international attention to the autonomy of the child accompanying incarcerated mothers and those they leave behind in the community despite being dependent on the convicted caregiver Adopting a child rights perspective the study explores how courts could go about sentencing mothers of young children for the commission of criminal offences whilst protecting the rights of the child as envisaged under the United Nations Convention on the Rights of the Child UNCRC Drawing on the author's experience as a sentencer in the Kenyan court and with reference to domestic regional and international law the book argues that children's rights are presently left in abeyance when their mothers are sentenced to imprisonment and that greater efforts should be made to recognize and give effect to the child's existence as an autonomous equal holder of human rights despite being dependent on the convicted caregiver It explores the application of precedence as well as the court's discretion in view of the dependent child and concludes that policy reform in this respect calls for change in attitude and approach on women and children's issues Observing that internationally most women imprisoned with their children fall beneath the custodial threshold set by law the research examines how current sentencing practices could be reformed and suggests harnessing the Power of Mercy Committee the Sentencing Guidelines and progressive practices from developed countries in protecting the child's rights by imposing non custodial sentences for the offending mothers It is concluded that in all jurisdictions strict accountability for the dependent child should be situated with the judiciary and that the same should be pronounced as a mandatory legal requirement The book will be a valuable resource for academic researchers and policy makers working in the area of international children's rights law and criminal law
