- early retirement and the decision to enroll in further study
- a change in work-life balance (family, individually related needs in a career because and the corresponding need for additional education
- increased responsibility for adults particularly women to raise a child (ages, 1995)

Figure in the literature and universities with many adult students confirm that colleges and universities will have an early need to come with these older learners. Although some universities have added special counseling and assistance programs, many have closed special career advisors and faculty, other responses have been less highly organized. Since the full-time adult undergraduate has been considered as a new phenomenon, the attention has been centered on part-time students. Therefore, almost none of the support services and resources
