Agriculture Handbook, 2019-11 **Translation Flows** Ilse Feinauer, Amanda Marais, Marius Swart, 2023-10-15 The genesis of this book was the 9th Congress of the European Society for Translation Studies held in Stellenbosch South Africa in September 2019 the first time the event took place outside Europe Living Translation People Processes Products was the Congress theme A common thread whether as a methodological or analytical basis as a descriptive framework or as a subject in itself was that of flows and the flowing nature of translation The contributions included here draw on a productive framework of networks and flows and foreground the inherent spatial and temporal diversity of Translation Studies Translation as a social practice is the golden thread throughout the volume not just translation in the conventional sense between languages and cultures but over artificial borders into new spaces between non traditional agents and actors and through various genres and mediums Chapters are clustered loosely based on the temporality of the topic under discussion Work on and from the Global North constitutes the first section and the second complements this by bringing the Global South into the picture as well This state of the art research will stimulate robust scholarly discussions as we map our way forward as a living discipline **The Routledge Handbook of Translation and Migration** Brigid Maher, Loredana Polezzi, Rita Wilson, 2024-09-06 The Routledge Handbook of Translation and Migration explores the practices and attitudes surrounding migration and translation aiming to redefine these two terms in light of their intersections and connections The volume adopts an interdisciplinary and transnational perspective highlighting the broad scope of migration and translation as not only linguistic and geographical phenomena but also cultural social artistic and psychological processes The nexus

between migration and translation the central concern of this Handbook challenges limited conceptualisations of identity and belonging thereby also exposing the limitations of monolingual monocultural models of nationhood Through a diverse range of approaches and methodologies individual chapters investigate specific historical circumstances and illustrate the need for an intersectional approach to questions of language access and language mediation With its range of approaches and case studies the volume highlights the inherently political nature of translation and its potential to shape social and cultural inclusion emphasising the crucial role of language and translation in informing professional practices institutional policies educational approaches and community attitudes towards migration By bringing together perspectives from both researchers and creative practitioners this book makes an innovative contribution to ongoing global discussions on linguistic hospitality and diversity ideal for those pursuing postgraduate and doctoral studies in translation studies linguistics international studies and cultural studies
