policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for the development of effective HIV AIDS policies and practices in HIV AIDS education curricula
