Development and Change Development Fieldwork is an excellent examination of and preparation for development research and will be an invaluable guide to all those entering or considering fieldwork wherever that may be Progress in Development Studies I would strongly recommend it as a field textbook across a range of disciplines and topics The tone is thoughtful engaging and pragmatic with all of the chapters contributing equally to a very high quality publication It is the best book I have read on fieldwork for a while It is essential for anyone contemplating development based study but it also contains a great deal of value and interest to geographers sociologists and other students working in and on the West Singapore Journal of Tropical Geography This is an outstanding book and one that all of us engaged in fieldwork in developing countries will want to read and doubtless re read Thoughtful relevant and consistently well written Professor Stuart Corbridge London School of Economics and University of Miami An excellent overview of the pitfalls and problems of fieldwork in remote places elegant and enjoyable incisive and elegant good humoured and eminently practical the Lonely Planet guide to the field Professor John Connell Sydney University A very welcome and richly inviting review of the politics ethics and practicalities of fieldwork Development Fieldwork deserves reading in many fields This will surely travel far James D Sidaway National University of Singapore I warmly commend this guide to anyone planning or even thinking about fieldwork in the Third World Postgraduates and academics will find it particularly good as it not only raises an abundance of practical and logistical points but explores fundamental ethical and epistemological concerns to an unusual degree including issues not addressed elsewhere The clarity and attention to detail are also very welcome as is the ease with which the book can be navigated Janet Townsend University of Durham Developmental Fieldwork provides a useful guide packed with information on practical and personal and sometimes political matters As with all good rough guides rather than fixing options and closing issues the authors make it a point to suggest flexible itineraries across the terrain of the field The book should in time become a well thumbed dog eared volume thrown into the haversack along with the notebook both sorts tape recorder mosquito repellent sunglasses and sturdy shoes Brenda S A Yeoh National University of Singapore A good introductory text that will assist the novice development researcher to prepare for a new experience and will also provide a timely reminder for more experienced researchers Evaluation Journal of Australasia Development Fieldwork provides an indispensable new resource and guide for all students undertaking development fieldwork in the Third World Accessible and lively the text introduces the basics of research design and methodology together with guidance on choosing the best research methods provides hands on advice practical personal and ethical to those preparing to enter the field covers the initial planning and preparation stages to end
